The late **Dr. J. H. McCollum** said of our Chloroform, "that during the nearly five years that I held the position of Medical Superintendent of the *Toronto General Hospital*, the Chloroform manufactured by **The Lyman Bros. & Co., Limited**, was administered to about one thousand annually, and in no case had we fatality from it. *I have also used it for thirteen years in private practice.*"

Dr. T. G. Johnston, Sarnia, says: "For the last six or seven years I have used no other Chloroform than that manufactured by **The Lyman Bros. & Co., Limited**, both in surgical and obstetrical practice, and have had, and still have, every reason to be thoroughly satisfied with it."

We Claim the Following Advantages

- 2nd. The Stage of Excitement is not Nearly as Great as with Other Makes.

- 4th. No Offensive Odor During Administration.

Dr. C. O'Reilly, Medical Superintendent of the *Toronto General Hospital*, says of our Ether Sulphuric: "During the last several years the Ether manufactured by **The Lyman Bros. & Co., Limited**, has been extensively used for anæsthetic purposes in *Toronto General Hospital*, and no accident has taken place from its administration."

Dr. James F. W. Ross says: "I have overcome my former prejudice against Ether, but **The Lyman Bros. & Co., Limited**, are now supplying an article put up in $\frac{1}{4}$ and $\frac{1}{2}$ lb. tins equal to any in the market. I have used it frequently, and have seen it used by others during the last twelve months for operations of all degrees of severity. The after-effects are no greater than after Squibb's or any other pure Ether."
