A NEW LITERARY SENSATION . . .

THE STICKIT MINISTER

And Some Common Men.

BY S. R. CROCKETT.

OUR handsomely bound Canadian Copyright Edition of this brilliant production of a new pen is being taken up rapidly. In England the book has already passed into a fifth edition. It has earned a place among the "immortals" of our English literature, and placed its author in the very front rank of living writers. Robert Louis Stevenson enthusiastically commends it. Now sparkling with quiet, delicious humor, again tender with a pathos that sounds the very depths of the heart, it offers all the charms that win for a book not only the admiration but the affection of the reader.

You cannot afford to miss it. For sale by all Booksellers.

FIFTH EDITION

Indispensable to every live Teacher

Practical * Problems

IN Arithmetic

For First, Second and Third Classes

By JAMES WHITE, Public School Teacher.

EDMONTON, ONT.

This book has been prepared especially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From ALLEN EMBURY, Esq., Inspector, Peel.

I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon various subjects in the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

Erom E. TROUGHT, Esq., Teacher, Member County Board of Examiners, Inglewood.

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that the principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.

Price, Bound in Cloth, 25 cts.

TEACHERS should urge their Trustees to secure them. Thousands of educators attest to their merit and great value. They are really a work of art, complete, durable, and just what is needed in every school, and are now in use in thousands of schools. Don't waste any more time in trying to teach these subjects from text books.

N. B.—We need a good practical worker in every county to represent us. Teachers can make good money during vacation. Write for terms, etc. This is a golden opportunity.
