and the
AGED.**

BENGER'S

**A FOOD OF GREAT
NUTRITIVE VALUE**

which can be made suitable for any degree of digestive power by the simple process of letting it stand for a longer or shorter period at one stage of its preparation.

It is used mixed with fresh new milk, and forms a delicate and nutritive cream, which is enjoyed and assimilated when other foods disagree. It is entirely free from rough and indigestible particles which produce irritation in delicate stomachs.

The *Lancet* describes it as "Mr. Benger's admirable preparation." Mothers and interested persons are requested to write for Booklet "Benger's Food and How to Use it." This contains a "Concise Guide to the Rearing of Infants," and practical information on the care of Invalids, Convalescents, and the Aged. Post free on application to Benger's Food Ltd., Otter Works, Manchester, England.

Benger's Food is sold in tins by Druggists, etc., everywhere.
