Mercantile Summary.

THERE is still a frugal living to be made by ship-builders in our Maritime Provinces. We read in a Picton paper that the ship "Hallgerda," 1,087 tons, built at New Glasgow, N.S., in 1874, and recently owned by Jas. W. Carmichael, New Glasgow, and others, has been sold on the other side of the Atlantic. The figures obtained for her is nearly £5 per ton.

ON Saturday last a piece of work was done at the Walkerville foundry of Kerr Brothers that does them great credit. On that day the bed plate of the triple expansion engine being built by that firm for the North-West Transportation Co., Sarnia, was successfully cast. It weighs over ten tons, and is allowed to be one of the largest iron castings in one piece ever made in the Dominion of Canada.

At a meeting of the geological and mining section of the Canadian Institute held here recently, Mr. W. H. Merritt presiding, Mr. C. Gordon Richardson read a paper on "The Copper and Nickel Ores of Sudbury," in which he gave much interesting information about the deposits of these minerals. A resolution was passed rejoicing that it had been decided to amend the Geological Survey Act so as to provide for the publication of full statistics on mineralogical and meteorological matters.

THE annual meeting of the Windsor Manufacturing and Novelty Co. took place in their new building last week. The following officers were elected: President, George A. Neveux; vice-president, Arch. McNeer; secretary, Chas. S. Baxter; and treasurer, O. R. Fleming. A VERY well known man in commercial circles of Western Ontario, Mr. Daniel Macfie, of London, died last week, suddenly. Mr. Macfie came to this country about 1840 as the representative of Peter Buchanan & Co., of Glasgow, Scotland, and at that time Mr. Isaac Buchanan, of Hamilton, advised him to go to St. Thomas. He did so, but afterward, in 1844, settled in London, where he became a successful merchant and business man. He assisted to found the Dominion Savings and Investment Society, and was made its first president. Some years after, in 1885, he was chosen president of the Carling Brewing and Malting Company.
