THE creditors of Lord & Munn, Montreal, met last Monday, when,—no other offer for the estate being forthcoming—it was decided to accept the offer of \$11,000 cash, made by the new firm of Lord, Munn & Co., for the assets of the estate. This will realize only about five cents on the dollar of the liabilities.

A RETAIL dry goods concern in Montreal, E. Fauteux & Co., whose rather unfavorable record, and recent desire to get an extension we noted a few weeks ago, having been unable to get the time asked from all their creditors, now proposes a compromise upon a sixty per cent basis. It will be interesting to observe how their request will be received.

IN Emerson, Manitoba, the sheriff has taken possession of the stock of C. B. Deacon, on a writ of attachment issued against his predecessor, W. H. Cooper, hardware dealer. The latter, who formerly carried on the hardware business in Emerson, has left the country. He became involved in real estate transactions last February, and made a sale of his business, the *bona fides* of which is doubted, to C. B. Deacon. Creditors have now stepped in and obtained possession of the stock.

THE retail trade of Ottawa has been very dull for weeks and the chances of improvement are somewhat remote. Too many stocks have been carried over. Building operations are just commencing. The Government has purchased a block fronting on Wellington street and extending from Elgin to Metcalfe streets. This is intended principally for the Department of the interior. In the adjoining block, fronting on Wellington street, the Bank of Ottawa has broken ground for the erection of a handsome office for itself.

AT Chapeau, a little village on the Upper Ottawa, Mr. W. L. Gray, a storekeeper, has effected a compromise at the rate of fifty cents on the dollar, payable one-third in cash, balance in 3 and 7 months. Liabilities between \$3,000 and \$4,000, with assets nominally the same. Mr. Gray has been accustomed to an official life, having been clerk of the circuit and commissioner's court &c., and does not seem altogether fitted for business, as he failed before in the spring of 1877, and went out of business for a time, only recommencing in 1880.

THE Paetolus Gold Mining Company, Nova Scotia, which has recently been working on a belt of low-grade ore yielding about \$4 per ton at the 95 foot level, says the *Engineering and Mining Journal*, started a cross-cut north, and, at a distance of ten feet from the belt, struck a twenty-inch lode hitherto entirely unknown, and made a rich strike therein. Two tons of the ore gave \$1,284 gold; \$80 was taken out of one pound of ore; \$600 was taken out of six pounds; \$540 was taken out of nine pounds. A single vein has been worked down to 800 feet depth.

IN our issue of the 20th April, we were by an unfortunate printer's mistake made to say that C. J. Powley, of Marchmont, had become insolvent. What we wrote was that he had become involved through the failure of R. R. Weir, of Orillia. The latter gentleman now claims that he has not failed. The fact appears to be that by arrangement with his principal creditors the business is henceforth to be run for them, leaving to him any surplus which shall remain after payment of their claims. To call this not a failure looks like cavilling about terms. No doubt men fail sometimes under circumstances which leave them a surplus after payment of their debts. We sincerely trust Mr. Weir's case may turn out to be one of these. To Mr. Powley we owe an apology in the first place for this

printer's error, and in the second for our tardiness in making the correction.

A CORRESPONDENT sends us particulars of an extensive milling and mercantile business in Lion's Head, on the Bruce peninsula, a village of very recent growth. There is also a large steam grist mill with two runs of stones, the only flouring mill north of Wiarton. The firm consists of Mr. Robt. Watt, of Lion's Head and Messrs. R. E. Moore & Vandusen of Harriston, and the name of the firm is Watt, Moore & Vandusen. The firm has 5,000 acres of good timber land.
