Some interesting articles have been published by the *Vossische Zeitung* on the small calibre guns and the researches of various professors as to the effect of wounds made by these guns at various distances—effects that are horrible. The conclusion is that in any future battles there will be incomparably more dead and severely wounded than ever before in the world's history.

One of the oldest trees in England is the "Tortworth" chestnut, in Gloucestershire. It is supposed to have attained its maturity in the reign of Egbert, and in 1766 it measured 52 feet in height and 50 feet in circumference.

Dear Sirs,—

"It is with great pleasure that I bear testimony to the efficacy of your Acetocura. Owing to a chill I was suffering great pain from a severe attack of toothache, and my gums were also very painful and much inflamed. Knowing from previous experience the effects produced from Acetocura, I was assured that the nerves, causing the trouble, could be relieved and soothed. The acid was first applied, as directed in your pamphlet, at the back of the head, until a smarting flush was produced, and then over the temporal muscle immediately behind the ear, with the Acid diluted. After the application there was little pain, and this mainly owing to the gums being in such an inflamed condition. I then fell into a refreshing sleep which lasted until morning and awoke to find the pain gone and the inflammation in the gums much reduced.

"My wife, who suffers from severe headaches, has also derived much benefit by applying the Acid to the top and back of the head, and using the spray producer which has a refreshing effect on the forehead."

Yours truly, ALEX. COWAN.

The ease with which F. Marion Crawford turns out a new and readable novel every few months is one of the amazing phenomena of the contemporary fiction crop. It is explained on the ground that Mr. Crawford is a man of robust build and vigorous health, that he is possessed of sufficient wealth to keep him safe from financial worry, that he has travelled widely and has had great social opportunities, and, finally, that he loves his work.
