

Depending on its budgets, the Department may in exceptional cases give financial assistance to projects:

- presented after the 12 to 18 month deadline;
- which do not constitute a tour but involve the participation of Canadian artists in events of international artistic importance;
- which involve the presentation of artists at booking conferences and showcases abroad.

The Department encourages artists and companies to seek additional funding for their projects from provincial and municipal governments, and Canadian corporations.

Financial assistance given by the Department is contingent on the availability of funds.

Projects submitted to the Department are studied by the Advisory Committee on Foreign Cultural Relations which advises on the artistic quality of the company, group or artist, and the appropriateness of the tour for the applicants and the countries to be visited.
