Winnipeg, MAN
R3H 0S1

Phone: 204-786-6451
Fax: 204-786-7736

Export Contact: Mr. M. Roumi, Export Sales Manager

Marketing Profile

Established in 1964 with the registered name "Convion" this company has established a position as a world leader in the development and production of environmental growth chambers and rooms used in agricultural research. Convion products can be found in research institutes and universities, as well as private industry in over 70 countries.

Convion has been in the forefront of its field with a global reputation for its stringent testing and high degree of quality control on all its products. Supporting the company's commitment to production, sales and service, Convion has an extensive sales network across the United States and in 60 countries around the world, and parts distribution warehouses strategically located in both Europe and South East Asia. Convion backs its products with a two year parts warranty.

Convion has been a major contributor to the advancement of bio-technology and plant life sciences. With the precise and reliable control within a plant growth chamber, scientists are able to accelerate plant development and growth on an experimental basis. In this way they can develop healthier, more stress tolerant plants, that are resistant to pests and diseases and produce higher yields. This technology has become a key factor in solving some of the world's major agricultural and food problems.
