

## CONVENTION ON REGISTRATION OF OBJECTS LAUNCHED INTO OUTER SPACE

*The States Parties to this Convention,*

*Recognizing* the common interest of all mankind in furthering the exploration and use of outer space for peaceful purposes,

*Recalling* that the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies of 27 January 1967<sup>(1)</sup> affirms that States shall bear international responsibility for their national activities in outer space and refers to the State on whose registry an object launched into outer space is carried,

*Recalling also* that the Agreement on the Rescue of Astronauts, the Return of Astronauts and the Return of Objects Launched into Outer Space of 22 April 1968<sup>(2)</sup> provides that a launching authority shall, upon request, furnish identifying data prior to the return of an object it has launched into outer space found beyond the territorial limits of the launching authority,

*Recalling further* that the Convention on International Liability for Damage Caused by Space Objects of 29 March 1972<sup>(3)</sup> establishes international rules and procedures concerning the liability of launching States for damage caused by their space objects,

*Desiring*, in the light of the Treaty on principles governing the activities of States in the exploration and use of outer space, including the moon and other celestial bodies, to make provision for the national registration by launching States of space objects launched into outer space,

*Desiring further* that a central register of objects launched into outer space be established and maintained, on a mandatory basis, by the Secretary-General of the United Nations,

*Desiring also* to provide for States Parties additional means and procedures to assist in the identification of space objects,

*Believing* that a mandatory system of registering objects launched into outer space would, in particular, assist in their identification and would contribute to the application and development of international law governing the exploration and use of outer space,

*Have agreed* on the following:

### ARTICLE I

For the purposes of this Convention:

- (a) The term "launching State" means:
  - (i) A State which launches or procures the launching of a space object;
  - (ii) A State from whose territory or facility a space object is launched;

<sup>(1)</sup> Treaty Series 1967 No. 19

<sup>(2)</sup> Treaty Series 1975 No. 6

<sup>(3)</sup> Treaty Series 1975 No. 7
