Hiram W. Hixon Esq.,
115 East 82nd Street,
New York, N.Y.

Dear Mr. Hixon:-

Please accept my best thanks for your letter of May 27th, as well as for the reprint of your article entitled "Is the Earth Expanding or Contracting"; together with the accompanying photograph of the moon's surface.

The conditions of the deeper part of the Earth's crust are as yet unknown, but investigation is gradually, year by year, throwing additional light upon them, and I hope that eventually we may be able to unravel the tangled skein and understand the many problems which present themselves in connection with the investigation of this subject.

Again thanking you for your interesting communication,

I remain, dear Mr. Hixon,

Yours very sincerely,

Acting Principal.
