ADDENDA.

Nearly all of the Rivers described in the foregoing Schedule are tidal streams, and most of them
have stationary Salmon and Trout fisheries within the embouchure, and at bays, coves and inlets on
either sides. Those upon the north shore of the St. Lawrence descend out of wild, rocky and moun-
tainous country.

Most of these streams, with their numerous tributaries, and the large lakes at the head of each
branch, present every variety of River and Lake suited to the breeding and feeding of fish.

Where there are mill-dams it is specially so noted. None elsewhere.

The names of certain Rivers at present advertised for sale are printed in italics.

The True Salmon (*Salmo Salar*), and the Tide Trout (*Salmo Trutta Marina*), are herein mentioned.

The Grand Trunk Railway, now in operation to St. Thomas, will be opened next autumn to River
du Loup, 110 miles below Quebec. Passenger steamboats ply between Quebec and the Saguenay.

Synopsis of the Laws and By-laws

NOW IN FORCE IN LOWER CANADA, HAVING ESPECIAL REFERENCE TO THE PRESER-
VATION AND REGULATION OF

SALMON AND TROUT FISHERIES.

Act 22nd Vic., cap. 86.
