Conservatives Will Object to Inclusion

OTTAWA, Jan. 9. + (Special). - A 200 lively row is anticipated when parliament reassembles because of the fact that in the official resume of the general election and the by-elections since 1908, which has just been published, the record of the Drummond-Arthabaska by-election is as follows: Liberal votes, 3244; Conservative votes, 341. Majority for Conservatives, 207. It is pointed out by the Conserva-tive members in the city that Mr. Gil-4,100 bert, who won the by-election, ran 200 as a Liberal-Nationalist and had no affiliation with the Conservatives.

All Other Anaesthetics.

OTTAWA, Jan. 9 .- (Special) .- A new use for electricity has been discovered by an Ottawa man. Dr. Mark Mc-Elhinney, a local dentist and inventor, has constructed a machine known as "Telelectron," which puts patients to sleep by placing them under the in-fluence of a softened effect of Hertzlan wave. The inventor confidently expects that his device will displace ether chloroform and all other an-aesthetics for hospital operations, and will also in time find a place in the bedchamber of victims of insomnia. worth of the shares, and that the amount of stock which changed hands totaled only 220 shares.

Outside of the above mentioned incident, there was nothing of much interest in the day's operations. The general undertone was good, and firm general undertone was good, and firm Hollinger was subjected to some profit-taking, and under this pressure dropped 10 points from last week's showed signs of strength, advancing to \$4.46, but later sales were made as low as \$4.25.

(0,000) at the close, when the shares were bid for at a fraction better than 79.

MUNRO TOWNSHIP Roads in Splendid Condition and Machinery is Going In.

Hon. W. J. Hanna yesterday personally authorized the announcement that licensed hotelmen who supplied "blind piggers" with supplies would be vigorously dealt with hereafter by the department. Twenty-eight hotel-

Several large mining operators have staked and bought up a large number of claims and are putting in machinery

to develop them for copper. Free gold has been found on almost all the working properties. The owners of another property, a private company, are putting in an ex-tensive mining plant and sevelopment work will go ahead full swing during

he New Year.

Munro is the second township east of Matheson, and lies about forty miles east of Percupine. It was first opened up when men were attracted by the reports of gold on the Abitibi Lake, the trails thru Munro being the quickest way to reach this country:

PORCUPINE CENTRAL PUT OUT.

COBALT, Jan. 9 .- (Special.) - J. Thos Reinhardt, representing a syndicate has underwritten 200,000 shares of treasury stock of the Porcupine Central Mining Co., and is offering this stock at the underwriting price of 40c pe

The Porcupine Central Mining Co. is a Delaware corporation capitalized for \$1,000,000, par of the stock being \$1; it holds 16 claims or 600 acres in the Townships of Tisdale and Whitney in the heart of operations in the Porcu-pine gold district.

The claims of the company are fav-orably located in the important op-erating centres. The stock of the Porcupine Central Mining Co. is to be listed on the New York and Res-

be listed on the New York and Bos-

BIG SIX MINE IN LIQUIDATION.

The Big Six Silver Cobalt Mines of Elk Lake have gone into liquidation. and all creditors have been asked to send in their claims at once. The Big Six had camps on the Mont-real River about a mile above Elk-Lake City. It was the companion pro-perty of the Mother Lode. The stock of the company sold as high as 25c a share in 1909, but has had only a nominal valuation of late.

WORKING GREEN MEEHAN.

A. M. Thomson of San Francisco. A. M. Thomson of San Francisco, who has taken a five-year lease of the Green-Meehan mine, is actively opening up the property and will push development work this winter and epring in an effort to pick up the valuable veins which were believed to exist on that claim. Twelve men are now at work on the Green-Mechan. The Red Rock, next door, is being pumped out Rock, next door, is being pumped out and will also be developed. PORCUPINE WILL MAKE MONEY

Cobalter, is President of the New Company.

Tisdale, in the Porcupine mining division, which have been transferred to the company, and in which the company has absolute title.

In this announcement two things stand out—first, the president of the Pearl Lake Gold Mines is Burr E. Cartwright, whose work as president on the Timiskaming mine of Cohait has resulted in the payment of \$800,000 in dividends to the shareholders during the past three years. As a mine owner and developer he is known wherever Cobalt is known. He has "made good" in Cobalt—by using the same methods in Porcupine he will "make good" again. Burr E. Cartwright's name, associated with the Pearl Lake Gold Mines, is the best evidence to New Ontario men that this Porcupine property will he developed and managed so as to show results. Burr E. Cartwright's advent into Porcupine is a great testimonial for the new gold dileids.

The prospectus of the Pearl Lake old Mines, Limited, dated Jan. 9, 1911,

Its authorized capital is \$2,500,000, divided into 2,500,000 shares of the par value of \$1 each. Five hundred thousand shares remain in the treasury. The remaining 2,000,000 shares have been issued as fully paid up in payment for mining claims 13707, 13708, 13709, 43710, all in the Township of Tiedale, in the Porcupine mining division, which have been transferred to the company, and in which the

in Porcupine.

Associated with the president, Burr
E. Cartwright, on the board is his son,

Over \$15,000 has been spent on development, surface work, trenching, etc., in order to locate the ore-bearing bodies on the surface, and to form an idea of the extent and value of the various deposits. This preleminary work has uncovered 50 quartz veins, ranging from two to thirty feet in width, some of which have been ntraced 500 feet. Free gold is showing in places in a number of these veins and gratifying assays have been obtained. In all some 15,000 feet of trenching has been done, one shaft sunk to a depth of 35 feet and a number of test pits put down. As the prospectus says: "The work has demonstrated beyond all question that the company can go ahead and work in gold bearing ore

handsome returns."

In the case of one vein there are spectacular showings of free gold and assays have run as high as \$223 per ton. Samples taken from across the

property.
A plant of at least six drill capacity with boilers, hoists, etc., is being in-stalled. When the machinery is in place two shafts will be sunk in paydays), 500 at 15%, 500, 1000 at 15%, at 15%.
