taking advantage of ali such reactions in order to make purchases.

Melady & Co. had the following at the close of the market:

Wheat—Liverpool market was unchanged and gave our local bulls a chill by its lack of response to the advance yesterday. Cash market was again dull, but steady, and the outstanding influence was the continued dry weather in the southwest and many reports of damage by bugs. The government report will be bearish, but as if only covers a period up to April 1 it will not include the damage of any which has resulted from drought and bugs in Kangas.

On any sharp break we think wheat is a purchase for fair profits.

Corn—The market showed strength from the opening, with commission and cash houses the best buyers. An improved

purchase for fair promes.

The market has now had a pretty good recovery from the low point, and we advise taking profits on long corn and waiting to open the lower.

Oats—Distant months were strong on continued unfavorable cron reports. Cash

replace it lower.

stronger, and my nerve
are very much better. Yours sincerely, R. M. (Sworn Testimonial.)

Health of body, strength of mind, steadiness of nerves are the best and most precious gifts man can lay upon the altar of his conjugal love. Restorine operates on the nerves which control the sexual system, and infuse into it, power and vigor. No such thing; as failure in life, is possible in perfect manhood; it is the lack of vital force, and the depletion of sexual energies that makes failures of men. Restorine awakens a man to a sense of restored vitality and power. Why be weak when you can so easily become strong? weak when you can so easily become strong? Proofs are the test. The Brooks Hudson Silver Mining Company, Limited, afferds to conservative mining men

and others an investment equalled by few-surpassed by none. Authorized capital only \$500,000.00, idivided into 500,000 shares, par value \$2.00 each, fully paid and non-assessable. The properties of the Brooks Hudson Silver Mining Company, Limited, consist of 22 claims of 40 acres each, located in the township of Hudson, on every one of which valuable discoveries have been made. Other properties have been added since incor-

poration, till at time of writing the Co. have an area of ever 1000 acres of good mineral lands. Some preliminary work has been done and a few assays obtained, showing very favorable

returns in gold, silver, copper, cobalt and zinc. EXPERT'S REPORT-Mr. Jacob M. Eggert, M. E., who submitted a report after examination, says: One thing is quite certain, that your Co. has a large number of veins rich in copper ores of various kinds, and so large that no dead work need be done and so rich that it will not come below 6%. Another thing seems to be certain also, that on several of your claims silver in paying quantities will be found. The claims are admirably situated as far as transportation is concerned, and all are near to already existing good roads and all have plenty of timber for mining and building purposes. I feel certain that what you have will prove to be mining claims of no mean rank, and claims worthy of confidence.

Subscriptions for a small block of 50,000 shares only are being received at 75c. per share. Stock will be advanced to \$1.00 per share as soon as this let has been sold. DON'T DELAY -send in your orders NOW; steck is going rapidly; why wait for stock to advance to double

Contracts for building two camps have already been given, which will be completed in a short time. Work on Ne. 1 shaft, on lot 5, was commenced on Wednesday of last week. Five other shafts will be put down with all possible despatch as soon as camps are completed.
