

## CLEANING UP FOR VACATION TO SHOW THE CORONATION

Workings of Assessment Department  
to Be Investigated by the  
Board of Control.

## A SPECIAL MEETING OF COUNCIL

In a Few Days as to Settlement  
With Gas Company—  
City Hall Notes.

The Mayor is authority for the statement that the investigation asked by the Retail Merchants' Association into the workings of the Assessment Commissioners' Department will be taken up by the Board of Control this week. Asked what form the investigation would take, he was not prepared to make any suggestions, beyond that it would be a matter for the Board of Control to decide. His Worship is not at all pleased with the Assessment Commissioners' attitude in regard to the leasing of the City Hall property, which was endorsed by the Council on Monday, and he will consult with the Corporation Counsel as to the legality of it. He thinks a much better bargain could have been made, and that it is simply an outrage that a 25-foot strip of the property fronting on Station street was not reserved for the city, who, he said, will now be cut out of their means of livelihood. The suggestion to place the cabmen on a stand south of the York street bridge is no solution of the difficulty. The Mayor thinks the proposition to exchange the City Hall property for that of the Gutta Percha and Rubber Company should have been taken up by the Council in regard to the lease to Mr. Fasken's client, H. W. Perrie. There should have been a public hearing on the subject, and he thinks the Assessment Commissioners are attaching too much importance to himself and his office.

## Another Special Meeting.

"What has become of the proposed settlement of the Gas Company suit?" the Mayor was asked by The World yesterday.

"Well, Council should deal with it before vacation. There is no reason why citizens should not be paid for the gas they use, and I think the board for their gas," replied His Worship.

"You will call a special meeting, then?"

"Yes, I think so. The matter may come up for consideration this week or early next week. It should not be allowed to stand much longer," was the Mayor's reply.

The Corporation Counsel is still in the hands of the Legal Department. He has been having some barriers against a settlement, but the latter hinges simply on a few details.

A sub-committee of the Works Committee met yesterday afternoon and paid visit to Pipe-street to investigate a complaint that an obstruction was formed by a portion of the top of the Rutter's boiler room.

The committee interviewed all the parties concerned, and an agreement was reached. The obstruction will be removed. Part of the obstruction will be removed.

Chairman Woods of the Works Committee conferred with the City Solicitor yesterday in regard to the proposed by-law in relation to the streets.

A by-law will be prepared to provide for the change. Some of the details of the present arrangements are being considered.

Hotelkeepers and Seat Speculators  
Drive Many Londoners to  
the Country.

## POLICE REGULATIONS OPPRESSIVE

Vast Crowd of Spectators Will Have  
a Poor Show to See the  
Spectacle.

London, June 17.—The coronation, as a public spectacle, threatens to be a fiasco. So serious has this possibility become that The London Times and other papers are printing alarmist letters, urging the authorities to take steps to prevent its failure before it is too late. The rapacity of the hotel-keepers and greed of the seat speculators are the reasons.

With scarcely more than a week before the coronation, not 50 per cent. of the seats on the huge stands have been sold. Frightened by the exorbitant demands, thousands of people residing in the suburbs and country, who had planned to come, have now decided to stay away, while a large proportion of Londoners will avail themselves of the opportunity to enjoy a holiday at the sea-side, or elsewhere, in preference to submitting to the inconvenience of the extraordinary police regulations which will be enforced on the coronation days.

Health Resorts Popular. The hotels and health resorts on the south coast, and round the United Kingdom, which are generally empty at the height of the season, are all booked for the coronation week. It is freely said that unless the stand proprietors admit the public in a body and gratis, or practically gratis, the King will pass his coronation thru an array of half-filled benches.

Special Contribution. But what chiefly contributes to the day's serious state of affairs are the police regulations which will be enforced on the coronation days. The London Times, which is a Tory paper, has a long article on the subject, and says that a few thousands will be able to see the royal party. The publisher regrets that the police regulations will be a mile of the first day's route is to be stopped at 3 o'clock in the morning and to be stopped at 5 a.m. are terrifying enough.

Crowds to Be Huddled. Solid metal barricades, 20 to 30 feet high, will be placed at the entrance of all streets and alleys leading anywhere near the route, and barriers will be placed at the gates which are to be swung on them.

The police will be in place. The royal British guards will be huddled together by the police, and the police will be huddled together by the police.

General public is a problem which has caused many of these protests. The police will be in place. The royal British guards will be huddled together by the police, and the police will be huddled together by the police.

## CAULFIELD AGAIN ON THE STAND

Saw the Prisoner Extract Money  
With the Digger—Rack-Off  
of \$300 in a Year.

Magistrate Kingsford yesterday afternoon committed Conductor George Howland, 37 Fuller-street, for trial, on a charge of theft from the Toronto Railway Company. His bail was renewed.

Policeman Crowe, who arrested Howland on a Bathurst-street car, testified that the accused had no face box, but in his pockets he had, besides a fair amount of money, a "digger," two detached tickets and two five-cent pieces.

Howland, after being cautioned, in answer to a question declared that he found the digger. P. C. Crowe then asked him "what do you use that for?" and he said, "I guess that is what I am here for."

T. C. Robinson, K.C., acting for Howland, objected that Howland's statement could not be used, as he had not been cautioned immediately before making the statement, and that P. C. Crowe had no right to ask the question. The Magistrate was inclined to attach weight to the objection, but admitted the evidence, subject to the objection. P. C. Crowe then asked Howland's room 12 detached red tickets, two blues and two whites, the blues being in an envelope.

So the only thing to be done was to take as much as possible while they could. On May 29, Caulfield saw Howland take down his fare box and dig out 25 cents. Sooner or later Howland told Caulfield that the company would find out, and those who were tampering with the boxes would be discharged.
