Marriage Is Civilization's Way of Remaining Civilized; Divorce Against God's Law

Rev. Dr. Thomas Manning, Sarnia, Regrets Bishop Fallon's Reported Utterances As Tending To Cause Bigotry and Hatred Among His Own People—Declares Protestant Churches Should Be Commended.

SARNIA, May 17.—"Marriage is civilization's way of remaining civilized, and divorce at any time is against God's law and Christ's teaching," said Rev. Dr. Thomas Manning of the Central Methodist Church here in an interview on "Divorce, a Matter of National Importance," and he added: "Thou shalt not commit adultery," marks divorce as at any time against God's law and Christ's teaching.

Speaking of the observations of Bishop Fallon upon the various organizations for social service of the Protestant churches, Mr. Manning declared they were very wrong and would tend to increase prejudice and undesired dislike against Protestants. "These organizations are," he said, "quite within their rights, creating public opinion by appealing to reason and conscience and if they succeeded in carrying with them a preponderance of public sentiment concerning drink and gambling and Sabbath observance they should not be sneered at by anyone who is a professed leader in all that makes for a country's good. The less drinking and gambling, etc., the better for the country. Fairness requires that those who are doing good should be commended for it."

"The degree," continued Mr. Manning, "to which legislation should go in enforcing moral convictions upon a nation is an unsettled and difficult problem. Bishop Fallon would enforce it in the matter of divorce, but sneers at it in the matters of gambling and drink. No church has ever enforced its convictions into national laws to the same degree as the Catholic Church, and if this be to make people holy by law, why speak contemptuously of the legislation according to the

public sentiment. When a high dignitary of the church speaks as Bishop Fallon is reported to have spoken he does very wrong. He misrepresents, and thereby increases bigotry and hatred among his own people."

SEVEN CENTS FARE ON STREET RAILWAY ADOPTED BY SARNIA CITY COUNCIL

Resolution Adopting Municipal Housing Act Is Also Approved.

SARNIA, May 17.—A recommendation was brought into the city council tonight by the railway committee that the following schedule of street railway fares be adopted: Single trip tickets, 7 cents; four tickets for 25 cents; workmen's tickets, six for 25 cents; children's fares, and fares to the beach to remain as at present. The recommendation was adopted practically unanimously.

Ald. Carlton and Ald. McAdams, however, demanded that if the scale be put in force, a better service be given. At a later stage of the meeting Ald. Parsons gave notice of moving a by-law at the next meeting of the council incorporating the new schedule. In asking for the increased fares, the street railway company stated that the increase asked for by the employees would require \$12,000.

Ald. Kerby presented a resolution calling on the city council to arrange a conference with the different building and allied trades for the purpose of revising the building bylaw. A bylaw was passed by the council adopting the municipal housing act of 1920 to the municipality.

DEATH OF JAMES GRUNCEL.

OWEN SOUND, May 17.—In the death of James Gruncel today this section of Grey County lost one of its most prominent and highly-respected citizens. He was born 74 years ago in Port Hope, and came to Sidney Township at the age of 26. He is survived by his wife, three sons and two daughters.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

ENGLAND, JAPAN SUFFERED DAY TO RENEW PACT

Will Continue Treaty With a Slight Change.

London, May 17.—The Anglo-Japanese treaty will in all probability, the correspondent learns, be renewed shortly without material change.

It will not expire until July 20, 1921, but under its terms either government must give notice on July 20 next whether it wishes to continue or terminate it.

Little doubt is entertained in well-informed circles here that England will renew it, as it is understood Japan is anxious to do so.

As regards Anglo-American relations, it was pointed out today that the present treaty specifically relieves either party from the obligation to go to war with any state with which it has an arbitration treaty.

As England and the United States are signatories of the peace commission's treaty of September 1914, Japan never would ask England to side with her against America.

MOTHER TRIES TO LURE DAUGHTER AWAY FROM A LONDON INSTITUTION

Advises Girl To Smash All The Dishes In The Place

CHATHAM, May 17.—Mrs. Helen Smith, of Prairie Siding appeared before Magistrate Arnold in the county police court today on a charge of attempting to entice her daughter away from a London institution, where she had been lawfully placed by the Kent Children's Aid Society. She was allowed to go on suspended sentence on payment of costs, with a warning not to communicate with her daughter in any way. The charge was laid as a result of a letter the defendant wrote to her daughter in the London institution, asking her to leave, and if she could not, to smash all the dishes in the place. The letter was read in court.

BREAD GOES UP

The price of bread advanced today from 13 cents to 14 cents a loaf. Bakers give the reason of the advance as due to increased cost of flour.

AN INTERESTING RELIC

An old sword, believed to have been used in the war of 1812-14, was found by laborers excavating near the sedimentation basin of the local water-works plant. It measures 21 inches in length, one and a half inches wide, and was apparently handmade. It is significant, some believe, that it was found close to Gen. Proctor's old line of march to Moraviantown.

CLOSE D. S. R. OFFICE

Official notice has been received by J. J. Evans, in charge of the information and service branch of the department of soldiers' civil re-establishment, that the local office will be closed on May 31.

CHINESE MASONS

A meeting of Chinese Masons was held in the city Saturday night, when five of their fellow-countrymen were initiated by the grand master, Tom Yee, who came especially from Toronto. It is two years since such a meeting was held. About thirty were present.

WINGHAM AUTOISTS

BLAME DUST CLOUDS

Collision Damages Two Autos, But Passengers Escape Serious Injury.

WINGHAM, May 17.—The dust raised by the numerous autos out on Sunday is blamed by both drivers for the collision of their cars at the corner yesterday afternoon, when a car driven by Mr. Hunt was struck by Mr. Adair's car. Both cars were badly damaged, that owned by Mr. Hunt having both front wheels torn off and the axle broken, while that driven by Mr. Adair came off a little easier and was able to reach a garage under its own gas. Mr. Hunt's family, who were riding with him at the time, were all thrown out of the car, but fortunately escaped serious injuries.

EVEN A DOG IS USEFUL

A new method of diverting attention from a raid is being made on a vegetable garden appears to have been discovered by some small boys here, who have been on the lookout for beds of citizens and selling the produce in town. The lads are alleged to have taken a dog with them on their visits to the gardens and looting some body's cat have set the dog on it, the barking of the dog at the cat guaranteeing to the lads sufficient freedom from observations to secure their supply of young onions.

METHODIST DISTRICT MEETINGS BEGIN TODAY

Ministerial Session at Askin Street Church Opens at 2 p.m.

The annual district meeting of the London district of the Methodist Church is open today, when the ministerial session will begin at 2 p.m., and not earlier. The general session, with laymen in attendance, will begin on Wednesday morning at 9 o'clock.

PRICE OF BREAD IS 200 PER CENT OVER

THE PRE-WAR PRICES

GUELPH, May 17.—Local bakers boosted the price of bread another cent today, and blame the increased cost of flour for the advance. Bread now sells here for 14 cents a small loaf, which is a 200 per cent increase over the retail cost in pre-war days.

ENGINEER RESIGNS

J. A. Tom, assistant engineer for the last year, has resigned and will leave Guelph at the end of the present month. He has been appointed resident highway engineer by the Provincial Government, with headquarters at Toronto. He will be succeeded here by S. Nicklin of the department of soldiers' civil re-establishment, a former member of the city engineer staff.

COAL SHORTAGE

Local coal dealers report that there is very little coal coming into the city at the present time, and the situation is regarded as serious. It was stated today it was almost impossible to secure soft coal, and only very small quantities of anthracite were arriving.

BRANTFORD REALTY CO. OFFICERS ARE ELECTED

BRANTFORD, May 17.—Officers of the Brantford Realty Company have been chosen as follows: President, Joseph Ham; vice-president, A. G. Ludlow; directors, F. W. Ryerson, S. P. Pether, A. K. Bunnell, A. E. Tomlinson and A. B. Burnley.

The M. O. H. reported today that for several weeks there had been a general epidemic of measles in the province and Brantford was evidently getting the tail end of it. Several cases were reported over the week-end.

It was announced at the health office that there will be at least one source of supply for certified milk for the city. A tuberculin test of a special herd of cattle was made last week as the first preliminary in this regard, and the owner proposed to carry out all the other regulations and supply raw milk.

The contract for the building of the new Pantages Theatre opposite the terminal at Hamilton, has been secured by Secord & Co. of this city at a cost of \$350,000.

AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-lives"

Little Bras D'or, C. B.

"I was a terrible sufferer from Dyspepsia and constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-lives.' In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON.

50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives, Limited, Ottawa.

CANADIAN CREDIT SYSTEM CRITICIZED

Government Lags Behind Britain and U. S. in Fostering Export Trade.

London, May 17.—Mr. F. H. Kapp, secretary of the Canadian Woolen Manufacturers' Association, has returned to Canada after securing orders for some \$8,000,000 from Rumania for Canadian woolen mills. It is understood, however, that though the order has been obtained, it has been found so far impossible to finance it. Your correspondent has been informed that the Canadian Government will not advance any more money to Rumania, where a \$25,000,000 risk has already been taken, and consequently the order cannot be financed under the new scheme of specific government credits, which was inaugurated this year.

It is said Mr. Kapp endeavored to have the credit arranged in London, but financiers would not entertain it unless the trade was divided with British manufacturers. Proposals are now being made to Belgian interests.

The difficulty met with in this case is an object lesson of the need of some satisfactory system of Canadian credits for export trade. Two systems have now been tried by the Dominion, and neither has proved entirely satisfactory. The main objection is that they provide only for transactions between government and government, whereas what is required is accommodation for ordinary trading between private individuals.

The former class of transaction is a relic of the war, and will soon become obsolete. Both the United States and Great Britain, with whom Canada is now competing for foreign trade, have credit systems. The new British plan is considered to incorporate many superior features, and a full outline of its modus operandi has been forwarded to Sir George Foster by the overseas branch of the department of trade and commerce. Instead of tying up \$100,000,000 of public money, as Canada has done, Britain will vote a fixed sum of £26,000,000, which is to be used over and over again as it is repaid, and will be employed to insure through banks, underwriters and insurance companies such transactions as are made under it.

Banked backed by the Government finance advanced to British exporters and underwriters, and insurance companies take the risk involved in possible refusal by the foreign consignee to meet the bill of exchange for the cost of the goods. The bill of exchange falls due at the end of the period, and at that time it is expected exchange will be normal again. The plan thus provides credit and also insurance against risk.

VESSEL PASSAGES.

Sault Ste. Marie, May 17.—Vessels—Up: vesen, 7:30 p.m. Sunday; Agawa, 8; McGonigle, 8:30; Dunn, Helen C. Hazard, 7; Jay Morley, 8; M. J. McMillen, 8:30; 7:30; Booth, Rochester, Underwood, Cooke, 8:30.

SHORT OF BREATH

Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N. S., writes: "I suffered for five years with heart trouble, I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

---and no one could tell the difference

Claire Lillian Peteler.

Sibyl Sanderson Fagan.

Drawn from actual photograph.

Last night's audience mystified Tries vainly to detect difference between art of famous artists and RE-CREATIONS by Edison's new phonograph

Those present at the Y. M. C. A. Auditorium last night saw Claire Lillian Peteler walk onto the stage. They saw her take her position next to a beautiful cabinet. They saw her lips give voice to the opening lines of Coming Home. Then suddenly her lips were still—but the song kept flowing on.

How came this? They were hearing Miss Peteler's voice, yet Miss Peteler was not singing. The entire audience gasped as it slowly realized that it had been unable to distinguish between Miss Peteler's voice and the RE-CREATION of that voice by the New Edison.

This was the daring test undertaken last night at the Y. M. C. A. Auditorium by Thomas A. Edison.

He sought to prove that no difference exists between the voice of the living artist and its RE-CREATION by the New Edison. The musically cultured of London were invited to pass judgment. No test could have been more exacting.

Miss Peteler made comparison after comparison. Sibyl Sanderson Fagan, who appeared jointly with Miss Peteler, also made tests with her whistling selections. The mystified audience tried vainly to catch a difference between the original rendition and its RE-CREATION by the New Edison. No one could tell one from the other.

It was a triumph whole and complete for the New Edison.

The NEW EDISON

"The Phonograph with a Soul"

The instrument used in last night's Test is a regular model. It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

The New Edison alone of all phonographs

is capable of sustaining this test. Until Mr. Edison knew it would do so, he regarded his work as unfinished.

Ask some one who was present last night. Learn the amazing truth. Then come in and let us prove it personally to you.
