How lamentable and yet how true it is that our social pleasures are responsible for most of our ills. This is due largely to neglect and thoughtlessness. A slight chill or cold contracted on leaving an overheated room after the system has been lowered by breathing the poisoned air, develops more rapidly than otherwise. Neglect this cold or cough and you will have sown the seeds of disease which rapidly germinate. Mothers should therefore warn their loved ones to take the greatest care of themselves when forced to mix with large numbers of people in close confinement and at all times (if they would preserve good health) use Psychine, the greatest of tonics.

The pictures given here tell their own story. The timely use of PSYCHINE "The Greatest of All Tonics" has saved many of Canada's fair daughters and her sons from an early grave. The following testimonials prove this:—

CHILD'S LIFE SAVED!

Mrs. E. Obediah of Ohswekin, Ont., declares that PSYCHINE saved her child's life. It was then suffering from pneumonia. This was in March, 1907. On August 11th, 1908, 17 months after; she wrote: "The condition of my family's health is decidedly good. I give PSYCHINE to each member of my family, eight in number, and I consider their good health is due to PSYCHINE which we recognize and

believe to be the greatest of Tonics. My husband and myself pin our faith to PSYCHINE because it has done so much for us in times past when hard pressed with sickness. I would be glad if you referred me to any skeptical person and you can use my name for this purpose." MOTHER AND BABY BENEFITED.

Mrs. Wm. Haystead of Falding, Ont., says:—"I was very weak and run down when I commenced using PSYCHINE. I used two bottles and now feel like a new person, I also gave PSYCHINE to my little boy who had pneumonia, with good-success. I shall always recommend PSYCHINE."

NO USE FOR DOCTOR NOW.

"I am glad to tell you I have not had to have the doctor-since I have used PSYCHINE. I am now in good health, also the family. I used PSYCHINE for my boys who were grow-ing too fast and were always pale and languid. PSYCHINE is now our family remedy," writes Mrs. Agnes Comber, 92 Wellington St., London, Ont.

WHAT PSYCHINE IS AND DOES

is the greatest strength restorer and system builder known to medical science. PSYCHINE regulates and tones up all the vital organs. It cures stomach troubles, aids digestion, destroys disease germs in the system. The greatest of tonics, it makes the blood pure, rich and healthy, giving renewed vigor and energy to those who are weak and tired and run down.

USE YOUR OWN JUDGMENT!

There are times when a choice has to be made between following the advice of a physician and taking the responsibility of using Psychine without or in apposition to his advice. You have the fullest assurince that you will be perfectly safe and justifiable in taking Psychine irrespective of any physician's advice, and even contrary to it. The physician that opposes its use is either out of date and not in touch with the most successful systems of treatment, or his own interests are put before those of his patient. Such a system of treatment, as Psychine, which has thousands of the most wonderful cures standing to its credit, cannot but be endorsed by every physician to whom the life and health of his patient is a matter of first importance. The best physicians, who have without prejudice looked into the great work Psychine is doing for humanity, are recommending it to many of their patients, and are unstinted in their praise of this remedy, the equal of which the world has never seen.
