Whether the Holiday be of the rough-and-ready order, living
under canvas, cooking meals, washing dishes, making beds, etc.,
taking canoe trips, hikes and fishing trips, or the kind where a
sojourn in a summer hotel is preferred, where everyone dresses up
in dainty white clothing all the time, the articles on this page
should be of interest to every man intent on making this year's
vacation the most successful he has ever enjoyed.

Safety Cushions for Your Boats and
CanoesGaily Covered With Awnings Ducks and Filled With
the Unsinkable Kapoc

THEY ARE JUST AS COMFORTABLE, just as picturesque, and no more
expensive than the ordinary boat cushion—yet think of their tremendous
advantage! They are life-preservers in cheerful disguise. The fill-
ing is of unsinkable kapoc, while attached to the sides are ropes to be grasped
in case of an upset. These in ordinary use serve as convenient handles for
carrying the cushions.

Suitable for use in canoes, motor boats, sail boats, any type of craft,
such safety-first cushions may be had in plain or striped duck in the usual
brown, green and tan shades. Those in double "lady-back" style are \$2.75
each, and those in square shape 85c. The latter may also be had in pantosole
leather at the same price.

The whole aspect changed.

The overwhelming victories won by

the valiant soldiers of Russia have

struck terror into the hearts of our

foes, and these, coupled with the im-

mortal defence of Verdun by our in-

valuable French comrades, and the

brave resistance of the Italians

against overwhelming odds in the

southern Alps, have changed the whole

complexion of the land campaign.

Now, the combined offensive in the

east and west have wrenched the in-

itiative out of the hands of the enemy

—never, I trust, to return to his grasp.

We have crossed the watershed and

now victory is beginning to flow in

our direction.

Huge Gain in Equipment.

"Why have our prospects improved?"

The answer is, the equipment of our

allies has improved enormously and

is continuing to improve. The British

for its success a continuous supply of

munitions of all kinds. From the suc-

gauche the paramount necessity of

avoiding even the slightest risk of re-

striction of the use of munitions in the

field, not merely in the weeks im-

mediately before us, but until our ob-

of the commander-in-chief, there must

be no slackening in the output even

for a moment. I therefore appeal to

the patriotism of the workers and the

public generally to again postpone

their holidays in order that the attack

No Letting Up.

Where health required, continued

the premier, leave of absence would be

granted, and the government held

itself responsible for seeing that

the holidays were merely postponed,

and not abandoned.

Mr. Rose referred to the claims of

mileage advanced for this accessory,

and to a sheaf of letters from car-

owners who had purchased the Com-

their cars.

"Here's a man says he increased his

mileage 66 per cent. on an old Cham-
