

TO MEET THE HARD TIMES,

AND PREPARE FOR THE

Good Times Coming.

Any one who has Sewing Machines out of order and who desires to use trade, or sell, them should in all cases have them repaired or re-built, as it will pay well, for then you can sell them as second hand machines and realize something for them, whereas if not in good working order they could not be given away. I can take an old battered rusty machine that has been in use from 5 to 25 years, and japan and ornament it exactly like the company's and it will look as well and sew and last as long as a new machine. My charges are the lowest for repairing and rebuilding and my customers can depend upon them staying there as I have built up a first-class trade in the towns from Brockville to Cornwall.

If necessary I can produce dozens of testimonials from parties I have done work for. In my absence from Prescott any orders left at Mrs. Rankin's will receive prompt attention on my return. Due notice of each visit to Prescott will be given in the newspapers. I guarantee all work done by me to give perfect satisfaction, or no charge.
