

ACTIVITIES OF BOY SCOUTS FOR WINTER BEGIN

Leaders' Hike Is Planned for Saturday—Girl Guides Get Office

The Boy Scouts of the district are starting up the new season's work with much zest and several of the Scout troops and Wolf Cub packs have already commenced their regular meetings.

The first big event of the new season is to be the Scout leaders hike to East Saint John on Saturday of this week. Scoutmasters, assistant scoutmasters, troop leaders, patrol leaders and secondaries are all invited to join the hike and all will meet at the corner of Winter and Stanley streets at 1:30 p.m.

Last year there were 15 boys in the Rover and this year it is expected that there will be a waiting list for members as only a limited number can be accommodated and very many boys are eager to enroll. Only boys over 16 years of age are eligible and in the Rover program they receive training that fits them to become Scoutmasters and also find new interests which have been the means of taking the boys of this age from undesirable idleness about the streets.

The district secretary of the Scouts, W. Hoyt, is at his office in the Board of Trade building each day and is kept very busy as the new season is getting under way and all of the troops and packs have some special request for help or guidance.

The Rover den is next to the secretary's office and there next month the Girl Guides office will be conducted on a special day each week, when the den is available, and both the provincial and district organizations of Girl Guides will make use of these quarters.

Children's Week October 10 To 16

A comprehensive and full program for the observance of children's week from October 10 to 16, was adopted by the local Children's Work Board at its meeting held yesterday afternoon in the rooms of the M. R. E. C. in Prince William street, with Miss Besse Holder, president, in the chair. It is hoped during Children's week to have the city clergy give pulpit reference to children and to have all the teachers of children's divisions in the Sunday school plan special efforts for that Sunday, to organize parents' meetings during the week, conduct story-telling hours and to visit the homes of children in their department.

Rev. W. C. Machum, boys' work secretary of the Maritime Religious Education Council, was present and spoke of the school of religious education that will be conducted by the Saint John county R. E. C. during the week of October 24 to 30. There will be special classes for teachers of the four departments of the children's division, cradle roll, beginners, primary and juniors, and there will also be an other class for teachers of other departments.

It is hoped to have leaders from out of the city conduct the classes of the school and to have many of the workers of the children's division attend.

Best Way to Shampoo a Dandruff Head

No hair can be luxuriant or healthy if there is dandruff in it. Not only is it a very unpleasant thing to see, but dandruff is a direct cause of itching and falling hair. The head may be kept free of dandruff simply by regular shampooing with a teaspoonful of barcol dissolved in a cup of hot water. Frequent washing with soaps and shampoos preparations heavily laden with alkalis or other injurious ingredients, is in itself one of the chief causes of dandruff. They take away the natural oil of the scalp, making it dry and scaly. Barcol, on the other hand, is a recognized therapeutic value, and the shampooing with barcol is economical to use, a half dollar's worth of barcol from the drugist lasting the average user a half year.

CHAPLIN'S \$25 PLAY

LONDON, Sept. 22.—A long time ago, before wealth and fame came to Charlie Chaplin, he wrote a sketch called "Twelve Just Men." Being distinctly hard up at the time, he sold it outright for \$25 to Ernie Lotings, an English comedian. Now Mr. Lotings, with the permission of the author, has made a full length play of the little sketch, and it is being produced at the Savoy Theatre in London within the next two months.

ASSISTANCE TO 300

Travelers' Aid Work Told of—Tag Day Objective \$2,000

More than 300 persons received assistance from the Travelers' Aid agents during the month of August, it was reported by the committee convenor, Mrs. L. deV. Chipman, yesterday afternoon, and the whole review of the month's work showed splendid accomplishment.

The committee in charge of the tag day for the Travelers' Aid, to be held this Saturday found in the reports submitted a great incentive to still further endeavor on behalf of a work that is rendering the city so much benefit.

Mrs. J. H. Crockett is general convenor for tag day. Last year the Travelers' Aid had a deficit of more than \$600, although nearly \$800 was realized on tag day. This year the tag day objective is to be \$2,000, and the workers are using very attractive bunches of violets instead of tags, hoping that the worthiness of the cause they plead will be emphasized in the attractiveness of the little bouquets.

DEADLY VIPER IS FOUND IN BANANAS

London Porter Shocked as Horned Snake Starts to Circle Neck

LONDON, Sept. 22.—A porter, while carrying a large bunch of bananas in the freight station at Leicester recently, was horrified to find a snake in the act of encircling his neck.

He had the presence of mind to dash the reptile to the ground. It was subsequently captured and taken to the museum. The curator declared it to be a dangerous horned viper.

The horned viper is a snake about 10 inches in length. It is exceedingly venomous, and has two horn-like protuberances over each eye, giving it a most sinister appearance.

It was by means of a horned viper that Cleopatra ended her life to avoid the disgrace of entering Rome as a captive.
