SAINT JOHN MAN DOING GOOD WORK IN CHENG TU, CHINA

Rev. Walter Small Superintendent of Construction at University

Many Saint John and New Brunswick friends will be interested in hearing that Rev. Walter Small who with his wife and family spent a recent fortnight in China, is making splendid progress in his work at the West China Union University, Chengtu, where he is superintendent of construction. In a recent letter to his father-in-law, Rev. William Lawson, Mr. Small wrote as follows: "I am up to my neck again with all kinds of work. For some weeks now I have been going into the city twice a week to help out with the rebuilding of the W. M. S. dispensary which had been taken right down owing to the widening of the street. We have it down and up again, with the roof going on in good time before the spring rains start. My biggest job in the immediate future is to get a large wooden tower on top of the brick section, which is 48 feet above the ground. It will need a lot of work. You see we have no steam cranes and steel beams to get things like this in position and have to depend entirely on man power. However we believe in the old saying 'Trust God and keep your powder dry' and so hope soon to report 'All Well.' By the time this reaches you it should be all painted and the clock telling the world the time."

GRAND PICTURE

My! if you could look out over these wonderful fields that surround our Campus and see the golden yellow of the rapidly ripening oil plants and the green and purple of the beans. It is a grand picture. Politically we are quiet at present but trouble is not far distant. If all the signs of the time are true, Yan Sen, the man who started all the street widening and other advanced work is back at Wan Hsien and is making plans for taking over certain parts of the Province and it looks

GAIETY

MONDAY AND TUESDAY
EVENINGS 7.30 - 9.10
HOOT GIBSON
IN
"THE HURRICANE"
A different type of outdoor photoplay - all the thrills of a human drama plus the capture and taming of the most beautiful wild horse ever shown in pictures.

as though he will be back up here before long. He is the one strong man who will not stand any nonsense from the students and younger generation. It was due to his strong attitude that the trouble was kept under in part of the Province last year. If only a few leaders could be found who would try to put into operation a few reforms in official circles and that would be beneficial to the people. But thus they run on from one to another and the poor folk pay the piper all the time. The Canadian school had a basketball contest between the senior and Junior High School groups, Charlotte played with the latter but also the seniors won with 20 points to 14. We are all enjoying good health with ample opportunities for work. Remember me to all the friends around."

TRUCK IN TROUBLE

Automobile truck No. X-1889 acted badly on Adelaide street on Saturday afternoon with the result that it went over a bank at Victoria street extension. The truck and the driver escaped without damage or injury and with the assistance of a team of horses the car was hauled to the street.

Cool Kitchens

Work in a refreshingly cool place this summer! Make your kitchen more like the veranda. An all-gas kitchen is cool, pleasant, EFFICIENT. You can do up the work in much less time and do it more comfortably and more enjoyably—with GAS.

Parley Likely To Be Held Up Indefinitely

LONDON, July 11.—The Daily Express understands that the Imperial Conference planned for this October is almost certain to be postponed indefinitely because of the uncertain political situation in Canada. The paper declared it is doubtful if Canada could at present send delegates to the conference who could speak with authority, but expresses the view that if one party is returned with a large majority at the next general election in the Dominion the prime minister returned by the country would possibly be in a position to attend the conference for Canada.

George B. Jones, M. P. for Royal, left yesterday afternoon for Ottawa. Mr. Jones has been mentioned as a cabinet possibility.

Red Cross Work At Beaver Harbor

The funds of the New Brunswick division of the Red Cross Society have been increased by a most generous gift of \$25 from the Beaver Harbor branch in Charlotte county. In a letter received by the secretary, Miss Ethel Hasen Jarvis, it is related how Beaver Harbor Red Cross members with splendid persistence carried through a project planned for earlier in the season and held an entertainment for the benefit of the Red Cross and to finance the purchase of new school desks. The total proceeds amounted to \$40.88 and from this sum \$25 was set aside for the Red Cross. The entertainment had been planned for the early winter but storms made it impossible to get together for rehearsing, then in turn came the "flu" followed by an epidemic of measles which the well had to nurse the sick. When sickness was a thing of the past some of the young men were called away to work and others found work interfered with rehearsals. But the organizers persevered and gave the entertainment recently, scoring a brilliant success.

N. B. SAILOR MISSING FROM CRAFT IS SAFE

HALIFAX, July 11.—Levi Laurence, a New Brunswick, who last week was reported missing from the fishing schooner Galahad, of whose crew he

was a member, today was stated to have reached Drumhead safely. The captain of the schooner, on his return from a fishing trip, announced that Laurence had left the ship during a fog in a dory and had not returned. The Galahad was off the Banks at the time.

Tourist Writes In Praise of Province

"I must admit that your country is simply wonderful. The section of the country through Westfield and along the Saint John River is certainly one of the beauty spots of America," is one of the interesting extracts taken from a letter received in the city on Saturday by a friend from an American tourist who recently visited New Brunswick by automobile.

"In fact our party was carried away with the country and its people. Our trip was one round of pleasure and instruction from start to finish. We were greatly interested in watching the fishermen, unloading salmon on the wharves in Saint John. We are looking forward to visiting in your vicinity again next summer, when we hope to be able to spend more time," is another tribute in the letter to New Brunswick as an objective for tourist travel.

BRIDAL PAIR COMING.

Mr. and Mrs. Arthur Herbert Gibson, of Weston, Mass., who were married recently at Wayland, Mass., will arrive on the Boston boat on Tuesday en route to the home of the bride's mother, Mrs. Margaret A. Pearson, at Highfield, Queens county, where they will spend their honeymoon.

Greece has, by a recent legislative decree, adopted the metric system.
