THE LADDER TRUCK

To the Editor of The Times-Star: Sir: The statement in the news column last evening, apparently authorized, that the Council will be asked to approve purchase of a new service ladder truck, will occasion much surprise and no little comment, especially in view of the assurance given at the time by the commission to the members of the council when it was proposed to purchase and secure the present truck. We were told that the machine was the latest type on the market and would fill all requirements.

If the proposal now being made carries the result will practically be an admission that the present machine is too unwieldy for our purposes, and that a "bunder" had been made when it was purchased, and will to some extent at least strengthen the opinion expressed from time to time that the "big beauty" had been discarded by an outside city for which it had been especially built and refused because of its unwieldiness.

Yours truly, JOHN B. JONES.
