NONE TO BENEFIT UNDER HER WILL

Montreal Centenarian Outlives All Her Intended Legatees-Even Lawyers are

Montreal, Oct. 14—Living to be more than 100 years of age, Mrs. James Johnston is now found to have outlived everybody mentioned in her will, a document published here.

The testatrix commends "my soul to Almighty God, in the hope of a blessed ressurrection, and my body to the grave to be interred according to my means and station in life."

She willed that the present warehouse and grounds, at present occupied by the firm of James Johnston & Company, St. Helen street, should be mortgaged to secure her legacy to her son, James, for \$20,000. In the meantime the firm has gone out of business. She willed to her daughter, Elizabeth, \$20,000, and the same property in St. Helen street was to be mortgaged to secure it.

Che willed the recidue to her hust

Helen street was to be mortgaged to secure it.

She willed the residue to her husband, long since dead, on condition that "he shall procure and furnish my son and daughter with requisite and proper apparel, board and lodging and all other necessaries of life, until their respective marriages."

The testatrix nominated as executors James Johnston; Alexander Mitchell, merchant; A. B. Stewart, official assignce; James Burnett, merchant, and Charles Wilkie of Quebec—all since dead. As an alternative executor, she named Daniel Wilkie, bank manager, Toronto, since dead; also Gavin Burns of Montreal, bank officer, since dead.

GUILTY OF ARSON;

FAINTS IN COURT

Albany, Oct. 14—An increase in the death rate in New York State for the first seven months of 1922, as compared with the corresponding period a year ago, was announced by the State Health Department. The rate up to the end of July last was 18.9, while a year ago the same period showed a rate of 12.7 a difference equivalent to 7,083 deaths.

An increase in the death rate in New York State for the first seven months of 1922, as compared with the corresponding period a year ago, was announced by the State Health Department. The rate up to the end of July last was 18.9, while a year ago the same period showed a rate of 12.7 a difference equivalent to 7,083 deaths.

An increase was also reported in infant mortality, and a decrease in births amounting to 4,225.

In a statement from the Health Department it was said that the rise in the death rate seemed to be accounted for "by the striking increase in the death rate in New York State for the first seven months of 1922, as compared with the corresponding period a year ago, was announced by the State Health Department. The rate up to the end of July last was 18.9, while a year ago the same period showed a rate of 12.7 a difference equivalent to 7,083 deaths.

An increase was also reported in infant mortality, and a decrease in births amounting to 4,225.

RECENT DEATHS

Brooklyn. She fainted when she heard
the verdict and was carried from the
court room. She will be sentenced on
Monday.

Mrs. Allers was charged with burning an old building at East Fifty-third
street and Avenue M, in the Flatlands
section, which was known as the Van
Dyke homestead. She bought it from
the city for \$106 on March 22 and had
thirty days in which to remove it, as a
street was to be put through the lot on
which it stood. A few days after the
purchase Mrs. Allers insured it for \$5,
000, insured the furniture for \$2,500 and
on April 18 it burned down.

When Fire Marshal Brophy investigated the fire he found that it: had
started in two separate places, and that
rags saturated in kerosene and burning
candles had been placed in the rooms.
Mrs. Allers had moved some of the
furniture to a shack nearby on East
Fifty-fourth street, where she was living with her twelve-year-old son Franz.
Mrs. Allers testified that Fire Marshal Brophy had told her that if she
would confess he would divide the insurance money with her. The jury Mrs. D. P. Chisholm, was warmly greeted on her return from the National Convention in Winnipeg. Rev. William Duke attended and addressed the meeting on the best means of organizing the gymnasium classes. It was decided to conduct classes for school girls and for seniors also and a committee was appointed to draw up the schedule of classes in readiness for the new season's activities. The matter of securing an instructress was considered and the League will endeavor to have a woman to take charge this year.

Invitations were received, one from the Red Cross society asking the League members to attend a meeting in the interests of the Red Cross membership campaign, and one from the G. W. V. A. asking the League to send representatives to a meeting at which arrangements for Poppy Day will be discussed. It was decided to accept both invitations.

New York, Oct. 14—Frank Pettingill fifteen years old, was arrested at his home in Brooklyn, and locked up in the Butler street station charged with juvenile delinquency. Detective Jeremiah Murphy, who made the arrest, accused the boy of breaking into three stores in Court street, near Balti.

The detective said the boy took goods valued at \$500 from a stationary store, a hardware store and a grocery store. The loot was recovered at the boy's home. The boy was quoted as saying he had been gathering goods for a

tribe, and a patent for 160 acres of land was issued in his name. Years later, with the development of oil properties it Oklahoma, the land awarded to home. Was later, with the development of oil properties it Oklahoma, the land awarded to

ed causes for the series of forest fires

Q-What is the best time in the fall o transplant young maple trees?

A.—After the leaves have fallen and A.—After the leaves have fallen and before frost has set in heavily. Make sure to disturb the roots as little as possible, paying attention particularly to the small hair roots, which are vital to the recuperation of the tree in its new position. Make the planting hole plenty big enough to accommodate the roots and sift in the finest soil immediately about the roots and tamp the earth firmly.

Q.—Have many of the municipalities in the United States or Canada attempted to build up municipal forests with the object of a future fuel supply as well as developing an area for recreation?

A.—Several Canadian municipalities

as well as developing an area for recreation?

A.—Several Canadian municipalities have already started communal forests much on the plan of the French and Swiss communal forests. One of the most notable is that of Carthage, N. Y. On a tract of two thousand acres 585,000 trees have been set out in order to protect the watershed areas on which the municipal water supply depends and to provide for future supply of timber. The trees set out fifteen years ago now measure from fifteen to eighteen feet in height and, six inches in diameter. This tract eventually will furnish a million board feet of lumber a year. In Europe, where planted forests are a well-established source of revenue, returns of from \$7 to \$12 an acre are secured from community forests.

HEAD OF KING STREET

Special Clearance, Monday Morning Only

Economy is best practiced by buying things you need when the price is so low that not to purchase would be bad business. That time has now arrived for dresses,

Amdur's, Ltd., No.1 King Square

led the streets armed with a huge butcher knife and a double barrelled shot gun. Terror-striken residents were herded into the shelter of elevators along the Canadian Pacific Railway tracks when the infuriated Austrians cursed their way through the streets and branished their weapons.

A telegraph message was dispatched to Moose Jaw, asking for police assistance. Officers left Moose Jaw by motor car and made the 27-mile run to Crestwind in less than an hour.

Upon their arrival in the village, they found Bodner- and Kuzak raving through the streets. The pair were overthrown and the shotgun, with a live shell in the breach, and the butcher knife, commandeered. Bodner and Kuzak were loaded into the motor and brought back to Moose Jaw, where they spent the night in provincial police cells.
