BY-LAW CASE.
In the case of T. Collins and Com-In the case of T. Collins and Company, I.td., charged under building laws with having repairs made on a building in Market street without obtaining a permit. James Carleton said that he received an application for the building of a potato cellar in Market street from H. C. Mott on October 20, 1920. He produced the application and also the plans of the building. He said that the building was to be of brick and stone. The height of the cellar had been increased from ten to about fifteen feet.

H. C. Mott, architect, said that last October he applied for the permit. He received the permit and proceeded with the work, which is not yet completed. The witness said that delay was caused by unfavorable weather conditions during the winter.

The case was postponed until Monday afternoon when the parties interested would go to Market street to view the building.

# RAIN DOES MUCH

Situation Improved in Westfield Area Today - Vigilance Still Maintained How-

Rain this morning, following a heavy

drizzle, fell like a benediction upon the fire stricken area of Westfield, accom this morning there was a heavy fog and about ten o'clock this developed into a drizzle succeeded later by a steady rain. T. M. Burns, secretary of the Board of Trade has received word that Rev. Henry McGill, is somewhat improved, although in a very weak condition.

MILITARY SCHOOL.

The military school for teachers wishing to qualify as cadet instructors, which has been conducted in the city this summer, will close next week when the applicants will be examined.

PARTNERSHIP CASE.

Before Mr. Justice Chandler hearing

drizzle succeeded later by a steady rain. When a few weeks ago, rain fell in the scorched district it was hoped that it would effectually quench the flames, but it was not of sufficient duration properties. Today after a week of almost uninterrupted fine weather the rain has set in again and it is earnestly to be hoped that this time it will come in sufficient quantities to remove every vestige of danger and allow the residents of Westfield and vicinity to breathe freely once again. Vigilance will not be relaxed until there is no doubt that the danger is over.

PARTNERSHIP CASE.

Before Mr. Justice Chandler hearing was commenced in the matter of Burns vs. McPartland an accounting demanded in an alleged partnership transaction. J. F. H. Teed and H. W. Robertson appeared for the plaintiff and W. M. Ryan for the defendant.

FINED IN TRAFIC CASES.

Kenneth Brown and George Bragdon, reported for operating automobiles and allowing them to stand with the right front wheel next the curb in front of the Dufferin Hotel, appeared in court this morning. They pleaded guilty and a fine of \$10 was allowed to stand.

In one again. Vigilance will not be relaxed until there is no doubt that the danger is over.

Commissioner Bullock said this morning that G. H. Prince, chief forester for New Brunswick, who is in charge of fire-fighting operations in the Westfield district had telephoned to the city this morning for more blankets for the use of his men. Six hundred men are concentrated around Westfield, Nerepis, Ononette and Grand Bay and much food and many blankets are required for their comfort.

POLICE COURT.

Terdil Antmen, a native of Finland, arrested yesterday evening in Metcalf street, was charged this morning in the police court with not being able to give a satisfactory account of himself. Officer Power, who made the arrest, said that Antmen told him that he had been employed fighting fires in Musquash. He was remanded.

DELIGHTFUL MASQUERADE.
The Misses Berarda and Mary Wilson gave a very enjoyable masquerade to about thirty of their young friends at the summer home of their parents, Mr. and Mrs. A. C. D. Wilson, at Fair Vale last evening. Games and dancing were indulged in, and refreshments were served. The party broke up about midnight.

According to at statement made last evening by G. H. Prince, chief forester for New Brunswick, positively nothing but heavy rain will remove the peril to surrounding villages lurking in the forest fires in the Westfield district. The situation last night was more encourging than it has been at any time since Saturday. Mr. Prince made a plea for ceaseless vigilance on the part of all to defeat and stamp out any new fire wherever it might start. He spoke highly of the excellent work being done by the fire-fighters. A heavy fog yesterday was of great aid in curtailing the further spread of the fire.
