After the ceremony luncheon was served, Mr. and Mrs. Reid will reside at Cassilis. Miss Sutherland is a graduate of the Provincial Normal School.

### A MESSAGE TO THIN, WEAK, SCRAWNY FOLKS

An Easy Way to Gain 10 to 30 Lbs of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilating functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Your druggist has Sargol, or can get it from his wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

### A NEGLECTED GOLD WILL VERY OFTEN TURN TO CONSUMPTION.

Never neglect what at first seems to be only a slight cold. Perhaps you start to cough, a little irritation in the throat, then it gets lower down, settles on the lungs and bronchitis sets in, and you start to raise phlegm of a greenish, yellowish color, and you cough persistently.

If you let the simple cold run it will become a cough, a little irritation in the throat, then it gets lower down, settles on the lungs and bronchitis sets in, and you start to raise phlegm of a greenish, yellowish color, and you cough persistently.

On the first sign of a cold or cough go to your dealer and procure a bottle of

### DR. WOOD'S NORWAY PINE SYRUP.

A few doses will convince you that it is just the remedy you require.

Mrs. J. W. Pearson, Amherst, N.S., writes: "Some time ago my daughter had a very bad cough which settled on her chest. She had no rest day or night. I gave her everything I could think of, but without doing her the least bit of good. At last I thought of Dr. Wood's Norway Pine Syrup, so I got a bottle for her. She had not taken half of it before she got relief, and with the remainder she was completely cured. Now when any of the family have a cough we always know what to get for it."

Dr. Wood's is 25c and 50c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

### N. Y. SOCIETY BUYS GIVE CZAR A BOOST

Marjorie Curtis.

New York, Dec. 14—Miss Marjorie Curtis, New York society girl and a dozen of her girl friends have so deep a sympathy for Russia that they gave a Russian festival recently and raised several thousand dollars for war victims in the Czar's country.

The festival was given at Biltmore, the home of Mrs. William K. Vanderbilt. All wore Russian costumes.

AN OLD PRINCIPLE

People sometimes talk about the mad-in-Canada movement as though it were some new discovery. It is regarded as a matter of novelty that people should ask for goods made by the labor that keeps the country prosperous. But as a matter of fact the principle of Mad-in-Canada is as old as the nation. It began generations ago in the farmhouses and the villages when there wasn't a machine invented that wasn't operated by hand or by foot.

The whole fabric of Canadian industry traces directly back to the old spinning-wheel and the loom and the village blacksmith shop. Nothing left the maker's hands in those days that couldn't be depended upon to give the last ounce of wear and tear for the work and the cost that went into it. Our pioneer makers were not afraid of the cost of production. They went on the
