

25 FISHERMEN ON N. S. CRAFT ARE GIVEN UP

Government Steamer Fails
to Find Single Trace
of Men

HALIFAX, Aug. 13.—Virtual-ly all hope had been abandoned tonight for the safety of the 25 Nova Scotia fishermen missing from the Lunenburg schooner Sylvia Mosher, whose deserted hull was discovered last Tuesday on the north bar off Sable Island, and the government steamer Lady Laurier, which has been scouring the Atlantic wastes in the vicinity of the island during the last two days, was returning to Halifax after a fruitless search.

She will, however, make another trip to Sable Island on Sunday with supplies and will therefore again pass through the region where the luckless schooner fell prey to the storm which drove her ashore and which, it is now believed, took her fearful toll of human lives.

This evening C. H. Harvey, local agent of the Marine and Fisheries Department, received a radio from Captain Suberland, of the Lady Laurier, stating that the Lunenburg schooner Annie E. Conrod "was also fishing on the Middle Bank." During the day the Lady Laurier reported another schooner, the Lucille M. Culp, as being safe. These schooners had not been heard from since the terrific storm last week-end and grave fears had been entertained in Lunenburg as to their whereabouts.

A SUPERB DIVE AGAINST SUPERB SCENERY

ONE of the most remarkable photographs ever taken in the Canadian Rockies, a work of art that blends in equal proportions beauty, grace, poise, in one unique effect against a background of noble mountain scenery, is shown here where Miss Lydia Fulcher, fancy diver, is portrayed high in air poised like a bird as though flying over the rugged peaks of the Canadian Rockies.

Miss Fulcher, champion of the Calgary Swimming Club, is a true marmalade of the Canadian West. She learned to swim in the Canadian Government's great pool, "The Cave and Basin," at Banff when she was a mere child. She became a champion last year at the Banff Winter Carnival when swimmers were diving into the Cave and Basin filled with hot sulphur water from Sulphur Mountain, when the temperature outside was hovering around the zero mark, while the water of the pool was well within summer temperatures.

cleave the waters of the pool. The swimming pool where she is staging her great act is the newly constructed one of Lake Louise, about 90 feet long and eight feet deep. There are springboards at different heights to suit the expert or amateur diver and the water is warm enough to attract those who are chary of attempting the cooler swimming in Lake Louise itself.

LADS SENTENCED

CHATHAM, Aug. 13.—Jerry LaPlante was sentenced to four months imprisonment in the county jail, and Richard Murray to one month imprisonment after they had pleaded guilty to a charge of theft, before Magistrate Gaynor yesterday. On account of their age and their promise to make good the loss, the magistrate was lenient in dealing with the offenders. LaPlante and Murray stole \$18 in cash and a pair of boots from John Scott, of Bathurst, about two weeks ago.

Both youths were taken to Newcastle today to serve their sentences.

WELSFORD W. I. HOLD MEETING

The Welsford Women's Institute held its meeting in the form of a picnic on the grounds of Mr. Kenneth Bayard. The day was all that could be desired and the meeting was enjoyed by a large number of members and invited guests. After the business part of the meeting, during which \$10 was voted for the Protestant Orphanage, a bountiful repast was served by the members.

Nova Scotian Proves Hoodoo Number Victim

WINNIPEG, Man., Aug. 13.—"Fate," the Thirteenth—the unlucky day—means something to George McDonald, a Nova Scotian, who sits on a little cot in a central police station cell. Thirteen days ago he was arrested. He has pleaded guilty to thirteen charges of shop-breaking and the theft of two motor cars, and now is awaiting sentence. He is thankful for one thing. He was not sentenced today, but will have judgment passed on Thursday, Aug. 15.

RUN DOWN IN HEALTH

Why Many Men and Women Are
Bully Handicapped

When you are so run down in health that it impairs the efficiency of your work as well as your power to enjoy your leisure hours, or obtain rest, it is time you looked to the cause. It is not a serious breakdown in all cases, but a serious one in many. It is usually described as general debility, but it is due to poor blood—blood that is deficient in red corpuscles. When the blood is thin and weak your whole system suffers. You lose appetite, have no energy, your nerves trouble you and you feel restless.

What you need is help to build up your blood and you should begin at once to make your blood rich and strong. Dr. Williams' Pink Pills will soon notice the difference in your health by a better appetite and increased vigor. The reason is that the new blood created by Dr. Williams' Pink Pills stimulates all the organs of the body to healthy activity and so the system gains nourishment and strength. If you are weak or out of sorts, begin gaining new strength today by taking Dr. Williams' Pink Pills. "I was in a badly run down condition," says Mrs. J. J. Potter, of Winifred, Alta., "when I began using Dr. Williams' Pink Pills and they fully restored my health. I strongly recommend this medicine to all weak people."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 60 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

60 INJURED IN RAIL WRECK

Freeman and Engineer Killed
in Long Island
Crash

CALVERTON, N. Y., Aug. 13.—William Squires and John Montgomery, both of Greenport, N. Y., engineer and fireman of a Long Island Railroad train, were killed tonight when two engines and two cars of the passenger train plunged from the tracks. About 60 persons were cut and bruised. The debris is being searched in the belief that other persons were killed or injured.

The wreck is believed to have been caused by an open switch. The two engines careened down an embankment, pulling two cars with them, one of which crashed through a frame building beside the tracks. Ambulances rushed from nearby towns, removed some of the injured to hospitals. The seven or eight cars of the train were loaded with 700 passengers, mostly commuters.

JOHN JAS. GOOD OF FREDERICTON DEAD

FREDERICTON, Aug. 13.—Friends here have received word of the death at Halifax, N.S., recently of John James Good, at the age of 82 years. The late Mr. Good was for a number of years with the Royal Canadian Regiment in this city, with the rank of Sergeant-Major, and was among those who served overseas in the Great War. On his return he resided in the cottage on Queen street near the old soldiers' barracks. He and his family moved to Ottawa seven years ago and he was employed with the Masonic History Company of Toronto. He was a prominent Mason and is survived by his wife (who was formerly a Miss Mitchell, of Lincoln), one son, Gordon; three daughters, Mrs. R. Brewer, Mrs. J. Brown and Miss Helen Good of Ottawa, also three brothers and one sister.

Pair Observe 40 Years Wed At Yarmouth

YARMOUTH, Aug. 13.—The scene of Dr. and Mrs. Albert J. Fuller was the scene of a very happy occasion yesterday when they celebrated the fortieth anniversary of their wedding. The event was known only to a few intimate friends. Those acquainted with the importance of the date extended to Dr. and Mrs. Fuller hearty congratulations and good wishes for many more years of continued happiness. Of the guests present at the wedding 40 years ago only four are today alive, viz., Mrs. John Blawie, Janet, sister to Mrs. Fuller; Mrs. Fye, Sheffield Mills, Kings county, sister of Dr. Fuller; Rev. Dr. Edwin Corwell, Yarmouth, and Dr. B. C. Gordon.

MOVIE PRODUCER TO P. E. L. MONCTON, Aug. 13.—Mr. Cecil DeMille, of Los Angeles, Calif., universally renowned moving picture producer, accompanied by Mrs. DeMille and family, passed through the city on the Maritime Express yesterday morning en route to Prince Edward Island where they will spend a vacation.

"C. O." Engines
Are Giving Economical Power

\$65 for fuel and oil with a "C. O." Engine and \$100 on a steamer for coal alone on the same trip but with half the cargo.

These are a few of the many favorable comments passed on "C. O." Engines by the hundreds of satisfied users.

These engines use low-grade fuel oils, are very simple in operation and quick in starting. The only moving parts are the pistons, connecting rods, crankshaft, oil pump and governor, and these are enclosed and automatically lubricated.

Made in sizes up to 350 h.p.
