POVERTY AND DISTRESS.

That poverty which produces the greates not of the purse but of the blood Deprived of its richness, it becomes scant and watery, a condition termed anemie in medical writings. Given this condition, and scrofulous wellings and sores, general and nervous debil ty, less of flesh and appetite, weak lungs, throat diseases and consumption, are among the common results. Therefore, if you are a sufferer from thin, poor blood, do not hesitate enriches the blood and radically cures these affections by striking at the root of the evil and removing the cause.

For all bronchial, throat and lung affections, severe lingering coughs, weak lungs, consumption in its early stages, asthma and kindred affections, Dr. Pierce's Golden Medical Discovery is the sovereign remedy, and has outrivaled from the chimney of the stationary engine all its competitors. It is harmless in any had lodged on the reof, which owing to condition of the system, yet powerful to the dry and warm weather ignited. We cure. Druggists sell it

Doctors Differ .- A curious case of disagreement of doctors developed recent. ly in Brooklyn. Major John T. Harrold sued the New York Elevated Railway Company for injuries sustained in a collision, asking \$50,000 damages. 'The surgeons who attended him swore that his eighth and ninth ribs were broken, the lungs punctured, and a concussion of the spine received which caused partial paralysis, and would result fatally. Six doc. ters and surgeons employed by the Company swore with equal positiveness that the plaintiff gave no evidence of broken ribs, that his lungs had not been punctured, that he was strong and muscular, in no wise suffering from his spine, and only shamming. No wonder judge and jury were puzzled. The verdict, however, was \$30,000 damages.
