(From Saturday's Daily.) The Times has had occasion in the past to point out how entertaining the ATTACKS DUPLICITY Matsonian journalistic troupe is when its respective members put on rival performances. It is now convinced that the spectacle in question is not half as amusing as when the troupe attempts John Oliver Addresses an En-

In an effort to demolish the damaging data printed by the Times the other evening with respect to the mileage, gradients, curves, equipment, etc., of the Canadian Northern railway, the formation.

that because this paper did not cite object to the Canadian Northern line, them chapter and page of the railway but to the route and means of guaranreports that it was trying to hide the sources of its information. On the contrary there is not the slightest desire to do so. But when a self-confessed ment had voted subsidies for 1,700 miles which lines could have been railway "authority" says it cannot miles, which lines could have been built by small assistance by the profind data in the railway department reports which men who make no such pretensions, await with interest each pretensions, await with interest each ernment to power. year, it stands convicted of either being grossly ignorant of the funda- Attorney-General Bowser on his policy mentals of a subject in which it poses as a past master, or else, as in the case of the Preston editorial and the notorious forged telegram, of being a him for damages. He would then exwilful medium of the coarsest kind of pose him,
The McBride government was conmisrepresentation. In either case the authority in question is a humbug and the Times knowing the quest of its contemporary was not really for information but for political ammunition, the Liberal policy was to compel them to live up to the white man's standard,

Now this, it seems, was evidence of boasting of \$4,000,000 surplus on the guilt of a peculiarly wicked and hor- other. rible nature. It set the editorial team hot-foot on the scent. The senior support of all honest Liberals and Conbooks he thought looked like reports books he thought looked like reports policy could be tolerated. The speaker and declared that "careful examination" was continuously interrupted with of the report of that department for hearty applause. the last fiscal year fails to disclose any such statements or any statements whatever in regard to the mileage and equipment of the Canadian Northern or any other railway in Canada except husband Charles Peterson, Mrs. Laura the government lines."

DELAY IN SALT WATER TEST

CITY ELECTRICIAN INTERVIEWS COUNCIL

Defective Bearings on Big Prominent Conservative States-**Pumps Causes Great** Difficulty.

(From Saturday's Daily.) pressure salt water system for fire protection purposes was made at Friday's meeting of the streets, sewers and bridges' committee of the city council by Superintendent Hutcheson of the electric lighting service. He deof the electric lighting service. He de-clared that the whole plant was in clared that the whole plant was place and ready for operation just as soon as certain tests which were being made to the pumps and machinery had proved satisfactory. Every effort was proved satisfactory. Every effort was are opposed to the alleged contract. being made by the contractors, the D'Olier Engineering Company, of Philadelphia, to adjust the difficulties which had arisen, and while it was possible that these difficulties might be that such a staunch Conservative a overcome any day, there was of course the son of "the old war-horse of Cumthe possibility that some considerable berland" had taken the field against could be taken over and placed in oper-vised policy.

Mr. Hutcheson said the chief trouble had been with over-heated bearings. The board should remember, at up-country points also. Indeed, it however, that the tests to which the is understood that if he accepted all however, that the tests to which the plant was being subjected were very rigid—more so perhaps than would ever be made when the plant was in actual use. It was felt, however, that it should not be accepted until it was found satisfactory in every particular. The work of adjusting the difficulty was in the hands of an agent of the contractors and he was making every is understood that if he accepted all the invitations that have come to him from independent Conservatives throughout the province he could not fulfil them before election day. On wednesday next he speaks in Revelstook in opposition to Hon. Thomas Taylor, Minister of Public Works, and in support of Mayor Charles F. Lindmark, the independent Conservative effort to get things running smooth- mark, the independent Conservative

Now that the dry season had passed the only thing to fear, as a consequence of the defects in the pumps was that the expected reduction in the insurance rates consequent on the plant MINING MAN IS being placed in operation, will not be

Ald. Turner said it was very regrettable that the delay had occurred. He knew for a fact that certain insurance companies of the city had refunded a Shot Former Roadhouse Keepsum of approximately \$5,000 on the statement from the council, made some time ago, that the salt water system would be running in ten days' time. He judged from what Mr. Hutcheson said that there might be a further de-
