SHOCKING TRAGEDY.

A Young Man Killed In Mistake for

The fifty-fifth annual Council of the Episcopal diocese of Milwaukee, says a despatch, has voted in favor of obanging the name of the "Protestant Episcopal church in the United States" to "The' American Catholle Church in the United States." This action, which will owne up in the form of a memorial before the seneral convention of the church at San Francisco aext month, is consid-ered by ohurchmen to be of the ut-most importance. The sentiment throughout the United States is very strong in favor of a change in the name of the church and such a me-morial, coming from the Milwaukee diocese, which is one of the most in-fluential and has the largest number of clergy of any diocese in the West, will, it is believed, have great weight at the convention. Bishop Nicholson is back of the changing of the name and it is prob-able that he will carry it in this dio-cose and thus bring it before the gen-eral conference. where. The dredge has done good work here and a work which shipping men appreciate. The river along the front of the wharves had been filling up foi the past several years until there was only about seven feet of water at the low summer level. This practically prevented vessels of any considerable size approaching the wharves and proved of great inconvenience, as all the hard coal comes here in summer and in schooners drawing over seven feet of water. The dredge has excavated to a depth of eleven feet at the lowest level from the upper high water wharf, back of city building, to the Star Line Com-pany's pier, and below that to the rail-way bridge was dredged two years ago: so that now there is eleven feet of water at any of the city wharves. A chamel some fifty or sixty feet wide along by the face of the wharves was due out and outside of that was a bar. This bar was dredged away so that now there is an increasing depth of water from the wharves out several hundred feet. said:--It would be more than strange, it would be a reproach, if there were dif-terences among us so radical that they could not be softened by the tragedy of death.
