N.B. TELEPHONE COMPANY HAD A PROSPEROUS YEAR

Annual Meeting of Shareholders was Held Yesterday at Fcton. REPORTS HEARD ENCOURAGING Installed Over 1600 New 'Phones During Year--Will Establish Exchange at Gagetown—Election of Officers.

Special to The Standard.

Fredericton, May 15.—That there are about 13,000 telephones in New Brunswick was stated at the annual meeting of the shareholders of the N. B. Telephone Company held this evening at the head offices here by President S. H. White in his report. During the past year 1,624 new 'phones were installed, bringing the exact total up to 12,915. The directors feel the growth is very gratifying. The increasing of the business, the report says, has necessitated the construction of additional circuits in several parts of the province and extra facilities have been provided in a number of the exchanges in order to give prompt and efficient service. The directors have continued the policy of expanding the rural service as far as it reasonably could be done and during the year have constructed one hundred and fourteen miles of this class of circuit. While the statement presented to the shareholders contains a comparatively large account of the credit of the company, it is only fair to explain that it does not represent a cash reserve but an expenditure which has come into the extension and growth of the telephone system and has been absorbed in maintaining the actual value of the plant as a whole. The amount for expenses and depreciation is \$297,328.04, leaving a net revenue of \$38,630.25. On profit and loss account \$14,473.68 is carried forward to credit. The financial statement showed a surplus of \$1,547,916.16; a surplus of \$14,473.68 over the liabilities. The gross revenue was shown as \$297,328.04.

Operating officers and directors were re-elected as follows: President, S. H. White, Sussex; 1st vice-pres., F. P. Thompson, Fredericton; 2nd vice-pres., F. B. Black, Sackville; secretary, S. A. W. McLaughlin, St. John.

Directors—The president, vice-presidents, G. W. Gaudin, St. Stephen; L. B. MacFarlane, Montreal; F. B. Carvell, M. P., Woodstock; R. O'Leary, Joan; P. W. Sumner, Moncton; A. W. Bennett, Sackville; A. R. Slipp, M. L. A., Fredericton; R. B. Emerson, H. P. Robinson, St. John.

Managing Board.—The president, vice-president, A. W. Bennett and H. P. Robinson. The directors this afternoon decided to open an exchange at Gagetown and it is now being installed and starts with 25 telephones. "We want to be ahead of the development that is taking place in the St. John valley, and is bound to make Gagetown an important centre," said H. P. Robinson in making the announcement. "We realize that extensive development all along the St. John valley from the construction of the Valley Railway now under way."

HALIFAX TRAMWAY HAVE STREET CAR STRIKE

Employees Meeting this Morning to Consider Matter—Ask for More Pay—Company Reputates Organizer.

Halifax, N. S., May 15.—A meeting of the employees of the Halifax Electric Tramway Company, to decide whether they will strike in the morning for a notice tonight notifying the men that unless they repudiate Sydney Mosher, the organizer, they will be no longer considered employees of the company. The alleged reason is that eight months ago an agreement was reached regarding wages and that this arrangement has been broken through the agency of Sydney Mosher. The time limit is set for May 20th.

BIG FIRE LOSS ON BUFFALO'S WATER FRONT

Erie Grain Elevator, Twenty-Eight Loaded Cars and Thousands of Bushels of Grain Were Burned.

Buffalo, May 15.—Half a million dollars' worth of waterfront property was damaged by fire today. The Erie elevator, one of the old style wooden structures, with its bins filled with wheat, corn and other grains, was completely destroyed.

The south end of the Erie Railroad Company's seaboard freight sheds was damaged by the flames and a large quantity of flour stored there was ruined by water.

The flames leaped across Buffalo Creek and set fire to the Lehigh Valley Railroad Company's trestle, but this blaze was quickly checked by a fire tug. Twenty-eight box cars loaded with grain were destroyed.

The fire was a most spectacular one and a time a large section of the waterfront terminals was threatened. The wind blowing at the rate of 25 miles an hour scattered the blazing embers over the buildings on both sides of Buffalo Creek, causing frequent small blazes.

The fire started in the cupola of the elevator and was caused either by a spark from a passing tug or spontaneous combustion, according to the elevator officials. The wooden material in the structure burned like tinder and within half an hour after the fire was discovered every portion of the roof was ablaze and it was apparent that the loss on the structure was to save the building. As the fire worked its way down, it released thousands of bushels of grain, pouring down in a blazing stream. This, with the intense heat, made it almost impossible for the firemen to get within striking distance of the elevator. Twenty-eight engines, 20,000 feet of hose and three fireboats fought the flames.

Several grain boats lying alongside the elevator were in danger of being destroyed. The sides were smoking when they were released and towed up the creek.

The elevator was owned by the Erie Railroad Company and leased to the Buffalo Grain Company. The loss on the building is estimated at \$175,000 and on the adjoining property, including the damage to the fire hose \$25,000.

Following Long, Bitter Riotous Opposition, Finish was Tame

Laurier Moved Six Months Hoist and Some French Conservatives Voted with Him—Premier's Speech Notable Utterance.

Ottawa, May 15.—The Naval Aid Bill has passed the House of Commons. At half past eleven tonight the most memorable parliamentary struggle since confederation came to its tame finish as could well be imagined. Following the long, bitter, and often riotous opposition to the government's naval proposal the final action of the opposition presented an extraordinary anti-climactic scene.

Four amendments were presented on the third reading and rejected. These amendments were, by Mr. German, that half past eleven tonight the most memorable parliamentary struggle since confederation came to its tame finish as could well be imagined. Following the long, bitter, and often riotous opposition to the government's naval proposal the final action of the opposition presented an extraordinary anti-climactic scene.

By Mr. Lemieux, that all work be performed under the provisions of the Naval Service Act of 1910, defeated by a vote of 85 to 46.

By Mr. Carroll, that materials be purchased in Canada, defeated on a vote of 103 to 58.

By Sir Wilfrid Laurier, "That this bill be not now read a third time, but on the very six months" defeated on a vote of 103 to 58.

DO NOT BELIEVE AMERICAN AMBASSADOR

London Trades Council Protest Appointment of Mr. Page—Say He is Opponent of Labor.

London, May 15.—The London Trades Council representing fifty thousand unionists, passed a resolution at the appointment of Walter H. Page as American ambassador to Great Britain, on the ground that he is a bitter opponent of organized labor, and asking Sir Edward Grey, the British Secretary for Foreign Affairs to protest against receiving him.

A copy of the resolution has been sent to the President of the United States and Sir Edward Grey, and every trade and labor council in the Kingdom has been invited to pass a similar resolution.

The London Trades Council took this action on a letter from the allied trades' council of Greater New York.

Mr. Churchill had said that "from this point of view" the differences in method which separated the policy of Mr. Borden from that of that far-seeing imperial statesman, Sir Wilfrid Laurier, was not of vital importance. The leader of the opposition admitted that the admiralty had expressed an opinion as to which method would be more convenient, quickest and most helpful, and best for the common good of the empire. But he said, the Admiralty had always favored a contributory rather than an autonomous organization.

Mr. Gullbank of Joliette announced his intention of voting for the Laurier amendment. He did not do so because he agreed with the leader of the opposition, Sir Wilfrid Laurier, but thought no naval proposal should be adopted until it had been submitted to the people.

The Prime Minister once again traversed his subject. There was no difference of opinion between the parties as to the manner in which contracts should be awarded and there was no intention to depart from the present practice. At the same time the government hoped to utilize the experience and expert knowledge of the British Admiralty and adopt the same safeguards as were employed in the case of vessels of the Imperial Navy. One or more of the ships might be constructed in a royal dock yard and not by a private firm.

Mr. Borden said that the leader of the opposition seemed to desire that the government should stay its hands until a fleet could be built in Canada and that no part of the money to be expended be expended until his hands were stayed by the opposition.

Mr. Borden said, "Any one who stays his hands, for fifteen years" asked Mr. Borden.

NEGRO RIMS ONE GUN

Fort Worth, Texas, May 15.—Tommy Lee, a negro bootblack, today shot dead Policeman Ogilvie, a veteran of the local force, and Walter Moore, a negro, and shot and severely wounded David Colton, and Harold Murdoch, an unidentified negro. He then crawled into a sewer while pursued by a mob of two thousand people and shot himself. He will die.

The trouble started when Lee fired upon a negro with whom he had quarreled. This excited him and he ran to a negro pool hall and killed Moore. The policeman was killed when he attempted to arrest Lee.

ENCAENIA AT THE N.B. YESTERDAY

Government's Increased Grant Much Appreciated—Premier Fleming and Dr. Walker Receive Honorary LL.D.

Fredericton, N. B., May 15.—The Undeveloped Resources of New Brunswick was the subject announced at encaenia at U. N. B. today by Lieutenant-Governor Wood as the subject for the Douglas essay for next year.

The subject announced for the Latin translation in competition for the Alumni Society medal next year was "Meyer's History of Greece, chapter 20, from the beginning down to 20, while the expedition was away."

Chancellor Jones in his address in opening the proceedings referred to the generous action on the part of the provincial government in increasing the provincial grant to the university to \$20,000, and also spoke of the fact that there had been during the year several generous donations by those interested in higher education, chief of which was the William Crockett Memorial Scholarship, which had been founded by Dr. A. P. Crockett of St. John in honor of his father, Principal William Crockett, LL. D., formerly Chief Superintendent of Education.

In presenting the scholarship prize of \$100 in gold to Murray McCheyne Baird of this city, the first winner of the prize, the speaker said that the province had every reason to be proud of the education of its people. At times he had been connected with all branches of the educational system, and was probably the chief man in the educational advancement of the province. Dr. A. P. Crockett, the donor of the prize, had taken it did honor not only to himself but also to his father, a man of the province had every reason to be proud of the education of its people. At times he had been connected with all branches of the educational system, and was probably the chief man in the educational advancement of the province. Dr. A. P. Crockett, the donor of the prize, had taken it did honor not only to himself but also to his father, a man of the province had every reason to be proud of the education of its people.
