SPECULATION RIFE ABOUT TEXT OF BRITISH NOTE

Request to Delay Publication
Has Official Washington
Guessing.

NEW NOTE PROMISED WITHIN A WEEK

Postponement to Give British
Government Chance to Con-
sider U. S. Note of July 17,
One Theory Advanced.

Washington, July 27.—The request made by Sir Edward Grey, British Minister for Foreign Affairs, that the State Department withhold from publication in tomorrow morning's papers, as originally planned, the text of the British note received yesterday in reply to the American protest against the British order-in-council, caused much speculation today in official circles.

No explanation for the delay was made except that another note on the same subject was promised from London "within the week."

Requires Special Consideration.

This communication, known as a caveat, recited that in view of the differences understood to exist between the two governments as to the principles of law applicable in prize court proceedings in cases involving American interests, and in order to avoid any misunderstanding as to the attitude of the United States, the British government is informed that the American government would insist upon the recognition of the rights of American citizens under the principles of international law as hitherto established, governing neutral trade in time of war, without limitation or impairment by order-in-council or other municipal legislation by the British government, and would not recognize the validity of prize court proceedings taken under the restraints imposed by British municipal law in derogation of the rights of American citizens under international law.

The British note delivered yesterday is understood to be framed upon the theory that the order-in-council does not transgress the rights of neutrals as laid down in international law, though it is admitted that in some respects the application of the legal principles is new. In view of the sweeping objection by the United States to the order-in-council made in the caveat, the British government feels, it is understood, this phase requires special treatment at this time.

Right to Blockade

Through Neutral Ports.

One feature of the British note is understood to deal exhaustively with the right of a country to blockade an enemy through neutral ports. That the United States in case it should be plunged into war with the European countries outside of the British Isles, never could successfully maintain a blockade so long as the enemy country could receive ultimate supplies across the borders of an adjacent country is regarded by the British as a fact which should be considered in dealing with the effort to cut off supplies being received by Germany through Swedish, Danish and Dutch ports.

STUBBORN RESISTANCE OF RUSSIANS CHECKS AUSTRO-GERMAN ADVANCE

Progress of Enemy Now Measured by Yards—Petrograd Reports
Enemy Thrown Back Across Narew at Several Points—Russians
Come Back Strong in Baltic Province, Delivering Fierce Attack
at Mitau and Inflicting Severe Loss.

London, July 27.—The Austro-German attempt to envelop the Russian armies defending Warsaw and to capture the Polish capital, which for a time progressed almost with the momentum of the offensive which cleared Galicia of the Russian troops, have been nearly brought to a standstill, and where the Germans are moving forward it is only yard by yard and at tremendous cost in men and material.

The German Field Marshal Von Mackensen has taken a few villages on the way to the Lublin-Cholm railway between the Vistula and the Bug rivers, and the Austrians, by a counter-offensive at Sokal, have captured positions which will make the German flank safer, but, as has so often occurred lately, Berlin officially reports that "otherwise the position of the German troops under Von Mackensen remains unchanged."

Along the western bank of the Vistula from Iwansorod to Novo Georgievsk even less progress apparently has been made, while along the Narew, where Field Marshal Von Hindenburg has been directing operations in an effort to drive a wedge in behind the city he is now largely occupied in meeting the Russian counter-attacks. These counter-attacks, according to Petrograd, have succeeded in forcing the Germans who had crossed the river to return to the northern bank at several points, but Berlin asserts that they completely failed, and that the German force is advancing in an easterly direction.

The Russians, who were defeated in the Baltic provinces recently, have also turned, and, according to a Russian official report, have delivered an attack from Mitau, which, however, was repulsed.

Further to the south the Germans continue their advance eastward, towards the Vilsa-Petrograd railway, but there is a report that it is considered more likely that Gen. Von Buelow, who is in command here, will turn to the southwest to threaten the Russian armies which are facing Von Hindenburg.

Everywhere the battles are at their height, especially that in which Von Mackensen is engaged. All the military critics here believe that this is the most critical of the campaigns for the whole German plan depends on their reaching the Lublin-Cholm railway.

With interest largely centered on the west, the important offensive of the French in Alsace has been almost disregarded. They report tonight another success to the north of Munster, which apparently is their objective, and the repulse of a series of German counter-attacks. The French have concentrated a lot of artillery in this region, and with high explosives have been simply tearing up the German defensive works, which are among the strongest along the whole line.

Artillery, likewise, is playing an important part in the battle on the Isouzo, where the Italians are reported to have concentrated for three days their fire is said to have exceeded in violence that which the Austro-Germans employed against the Russians in Western Galicia, which up to that time was the most terrific ever experienced in war.

AUSTRIANS DID SMALL DAMAGE IN AIR RAID

A Dozen Bombs Were Dropped
But all Failed to Hit the
Mark at Verona.

Verona, Italy, July 27.—About a dozen bombs were dropped on this city today by an Austrian aeroplane. There were no victims of the air attack and the damage done to property was insignificant.

An alarm was given as soon as the Austrian machine made its appearance over Verona early this morning and all lights were extinguished. All the forts defending the city directed a fire at the aeroplane which, after throwing down the missiles, succeeded in escaping.

MAKE LID TIGHTER ON THE NEWSPAPERS?

Maj. Gen. Lessard Forecasts
More Rigid Censorship of
Canadian Publications.

Vernon, B. C., July 27.—Censorship for Canadian newspapers was today forecast in an interview by Major General Lessard, Inspector-General of Canadian forces. General Lessard is in Vernon to inspect the thousands of men who are mobilized and training here. His remark as to the censorship was made in a discussion of the enterprising persistence of Canadian newspapermen in regard to those military secrets which they have been forbidden to publish. He cited the case of a British battleship which had a "wave" painted on her bow in order to deceive the enemy and give the impression that she was at full speed when really standing still. Of this photos were printed.

"That 'story' as you call it," the general said, "was doubtless a triumph for the newspaperman who got it, but consciously or unconsciously he gave away important information. There is a sort of censorship in Canada at the present time, but I think that this will be made a little more strict."

PAID A VISIT TO YPRES BATTLEFIELD

Meets Patricia, Depleted in
Ranks, But Dauntless as
Ever—Plants Seeds of Maple
Tree on Graves of Fallen
Canadians.

London, July 27.—Seen at the Savoy Hotel today, Sir Robert Borden had an interesting story to tell of his strenuous trip to France, where he came in intimate contact with the activities of the war zone. Having been given every facility by the Allied authorities, the Premier visited the French, British and Canadian headquarters, went into the trenches and saw the artillery at work. He also visited numerous hospitals, and conveyed to the wounded Canadians a message on behalf of the Dominion. "My message," said Sir Robert, "expressed the pride and admiration of the Canadian people for what they had done. I also conveyed to them a personal greeting from His Royal Highness the Duke of Connaught.

"As to the general attitude of the men in the field or in the hospitals," said Sir Robert, "they hardly realized the marvelous impression their splendid achievements have made on the people of the Dominion. They impressed me as being thoroughly conscious of the world-wide issues involved in this war, and as being inspired by an unwavering determination to perform their duty in the future as in the past."

One of the most touching incidents in the visit of the Premier to the Canadian division was the meeting with the Princess Patricia a week ago, on which occasion Sir Robert was accompanied by Prince Arthur of Connaught. To the depleted ranks of the regiment, Prince Arthur delivered a stirring address, at the close of which the premier called for three cheers for Her Royal Highness the Princess Patricia, which were heartily given. Among the officers met was Captain Talbot Paineau, wearing the decoration bestowed upon him by the King.

Referring to the meeting with General Joffre, Sir Robert stated that the French commander-in-chief spoke in high terms of admiration of the conduct of the Canadian forces. The Premier was pleased in return to praise the efficiency of the French military organization. In Paris Sir Robert was the guest of honor at a dinner given by President Poincaré, where he met the British Ambassador, the French Minister of War and the French Minister of Foreign Affairs.

The hospital established by a number of Quebec towns was visited, as were various other institutions maintained by Canadian organizations. Sir Robert expressed his pleasure at having met, both at the front and in the hospitals, many Canadians of French origin, several of whom had distinguished themselves.

The memory of the heroic dead was honored in a most appropriate way. Visiting the cemetery at Boulogne towards sunset, Sir Robert was shown a large number of graves of fallen Canadian officers and men, in the soil of which he planted seeds of the maple tree which stands as the symbol of the Dominion.

EVACUATION OF GORIZIA BY AUSTRIANS BEGUN

Italians Driving Enemy From the Town—All Trains Have
Been Reserved for Troops and Ammunition—Work on
Fortifications Has Been Stopped—Evacuation of Podgora
Only Question of Hours.

Geneva, via London, July 27.—A despatch from Laibach to the Tribune says:

"Last night the Austrians began to evacuate Gorizia. The evacuation of Podgora also is a question of hours.

"All the trains from Gorizia have been reserved for the troops and ammunition and food supplies will be removed later. The workmen have been ordered to cease strengthening the fortifications. Every measure has been taken for a great retreat.

"At Doberdo the Austrian troops guarding the route to Trieste have been unable to hold their positions.

"On the Carzo Plateau, with the exception of a few trenches, the Italians have captured the entire plateau, the Austrians losing 2,000 men in two days here.

"The great Italian offensive on the banks of the Isouzo is daily progressing favorably."

STRIKERS VOTE TO END THE STRIKE

Standard Oil Employees at Bay-
onne End Strike at Im-
promptu Street Meeting.

New York, July 27.—The strike of employees of the Standard Oil Company at its Bayonne, N. J., plant which has lasted ten days and resulted in serious rioting, during which three men were killed and scores injured, is at an end. The strikers at an impromptu street meeting in front of Union Hall so voted today and at the finish of the meeting dispersed with cheers.

The men voted to return on the promise of G. B. Hennessey, the plant superintendent, that he would recommend an increase in wages and would right any wrongs found to exist in the shop if the men return to work forthwith. This proposition was secured by John A. Moffitt and James A. Smyth, the Federal mediators, and is in effect the same proposal that was presented to the strikers yesterday by Sheriff Kinkead, but which was then rejected by a portion of the men.

Mr. Moffitt left Bayonne this evening, saying that his work was satisfactorily finished.
