### HE RESIGNED PREMIERSHIP OF GREECE

ELEUTHERIOS VENIZELIS.

Mr. Venizelos resigned the Premiership of Greece after the King had informed him that he was unable to support the policy of his Ministry. The King, following his dismissal of Mr. Eleutherios Venizelos, has taken personal control of the government. With the new crisis in Athens diplomats say the sovereign, who is the Kaiser's brother-in-law, holds in his hands the balance of power in the Balkans and may be able to dictate the policy that will decide the fate of Constantinople.

From Chance Harbor.

longing to St. John. It was learned later that the two young men, who are now ready to fight for their King and Country, are not residents of this city but come from Chance Harbor.

## DIVERSION OF THE ST. CROIX AT SPRAGUE'S FALLS BEFORE WATERWAYS COMMISSION

Attorney-General Baxter represented the Province of New Brunswick at the hearing in Ottawa last week—Men engaged in the case.

Hon. J. B. M. Baxter returned to the city on Saturday from Ottawa where he had represented the province at the hearing of the Sprague's Falls matter before the International Waterways Commission. The matter was discussed some months ago at a session in Calais. The Sprague's Falls Manufacturing Company incorporated by act of the Dominion Parliament, and also incorporated in the State of Maine was given the right to dam the St. Croix river.

Without authority they dug a canal on the American side of the river by which the water was diverted for nearly half a mile with the result that the bed of the St. Croix was in places practically dry and the water power was taken off at the American side. Under the international waterways treaty the United States and Canada were to have "equal and similar rights" in all boundary waters. The St. Stephen Board of Trade objected to the company's cutting of the canal and the company applied in Congress for an act to legalize what they had done on the American side of the river and in the Canadian Parliament for a similar act covering the Canadian side. Before such an act can be passed in Canada the applicants must have a recommendation in favor of the scheme from the Waterways Commission.

After the meeting in Calais in June it was decided to have reports from Major Pope of the United States War department, under whose jurisdiction such questions come, and from W. J. Stewart, engineer of the Canadian Conservation Commission.

Both engineers agreed that the power developments since the making of the treaty could be equalled by the water powers as yet untapped and this could be available on the Canadian side of the river. Such opportunities are all in private hands and must be acquired by purchase or expropriation, matters with which the commission has nothing to do.

Interesting legal questions arose as to the power of the Dominion Parliament to authorize the construction of a dam on land belonging to the Province of New Brunswick. It was admitted that the Dominion Parliament could authorize the damming of the Canadian side of the river but the contention was that it could not build a dam on land belonging to the province conferred capacity on the company to erect a dam without vesting in it rights to the soil on which it would be built. The company contended that under the original grants from the Province of New Brunswick, title to which had been acquired from the holders, they were owners of the land under the water to the middle of the stream. While the commission did not pronounce on this contention it intimated that if it approved of the appropriation of the water on behalf of the company it would be subject to the company acquiring any rights which might be required without at present defining what such rights might be or what parties owned them.

The Canadian Commission of Conservation took the ground that words in the treaty "equal and similar rights" were to be applied to each water power proposal as it came up, and the fact that sufficient undeveloped power opportunities remained which it acquired by Canada would be equal to one-half of the water power of the stream did not fulfill the intention of the treaty, and contended that some compensation should be made to Canada for the use of all the water at the point in question.

All the commissioners were in attendance and as the meeting was held in Canada, C. A. Magrath, chairman of the Canadian section, presided, and associated with him were H. A. Powell, K. C., of this city and P. G. McNeault, K. C., of Montreal. The American commissioners were Hon. James Tawney, ex-Governor of New South Carolina and ex-Senate Senator Obadiah Gardner of Maine. Canadian interests were represented by C. S. MacInnes, K. C., of Toronto, those of the Province of New Brunswick by Attorney General Baxter and those of the companies concerned by W. N. Tilley, K. C., of Toronto, M. N. Cockburn, K. C., of St. Andrews, and George F. Curran of Calais. Ex-Judge Koonce of the United States War Department, and W. M. Wydlle were counsel for the United States government. The hearing commenced on Tuesday afternoon and continued for the greater

part of Thursday. The next session of the Commission will be held in New York.

On Wednesday afternoon the Canadian Club of Ottawa met in the Chateau Laurier, when there was a very large attendance and an address on the work of the Waterways Commission was delivered by Hon. James Tawney. It was enthusiastically received. The speaker emphasized the importance of this tribunal which, already, without ostentation and without publicity, had settled important international questions which under other conditions might easily have been an excuse for war.

C. A. Magrath also delivered an interesting address in which he advocated ideals in politics and the subordination of the party system of government. Sir Robert Borden was among those present at the function which was attended by a large number of the most prominent citizens of Ottawa.

On Wednesday evening Messrs. Magrath, MacInnes and Burpee, secretary of the Commission, entertained the other members, the counsel engaged and a large number of those interested in the subject before the Commission, at an informal dinner in the Ottawa Golf Club. The feature of the evening was an eloquent and witty speech by H. A. Powell, K. C., of St. John.

## DANDRUFF GOES! HAIR GETS THICK, WAVY, BEAUTIFUL

Save your hair! Double its beauty in a few moments. Try this!

Hair stops coming out and every particle of dandruff disappears.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No doubt how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, shiny and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—no more!

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its stimulating, stimulating and life-giving properties cause the hair to grow long, strong and beautiful.

## U.S. NOT DODGING TROUBLE BUT MUST PRESERVE CAUSE OF HUMANITY

Washington, Oct. 11.—President Wilson, speaking today at the 25th anniversary meeting of the Daughters of the American Revolution, declared the United States should keep out of the European war, not to avoid trouble, but to preserve the foundations upon which peace must be built.

"We should keep out of the quarrel," he declared, "America has promised the world to pursue a course grounded on justice. We are not trying to keep out of the trouble. We are trying to maintain the foundations on which peace must be built. America must preserve the cause of humanity."

### NORWEGIAN BARK SUNK IN COLLISION

London, Oct. 11.—The Norwegian bark Sellen, from Clyde for Savannah, has been sunk as the result of a collision near Torr Head. Her crew were saved. The Sellen, a four-master of 2,092 tons gross, was owned in Christiansand.

### City Council.

The city council will meet this afternoon at 3 o'clock. It is expected that street railway matters will be under discussion.

## GOVERNOR WOOD TRANSMITS RED CROSS SOCIETY APPEAL

British Association makes Empire-wide request for funds to relieve the sufferings of wounded soldiers—Oct. 21 set apart.

I have received the following cablegram from the Marquis of Lansdowne (who from 1882 to 1888 was Governor General of Canada) in his capacity as President of the British Red Cross Society:

I beg to inform you that the British Red Cross Society and the Order of St. John, in view of the great demands upon their resources, both in France and in the Near East, have decided to make an appeal throughout the Empire by street and other collections upon October 21st. The money received from this appeal will be devoted entirely to relieve the sufferings of our wounded soldiers and sailors from home and overseas at the various seats of war. From all parts of the King's Dominions we have already received generous assistance in our work, but in the increase of British and overseas forces at the front, there is a corresponding increase in our expenditure, and we shall be truly grateful to you if you will help us by organizing an appeal and sending us the proceeds for the objects I have named. I shall be greatly obliged if you will kindly communicate the foregoing to your government. Their Majesties the King and Queen and Her Majesty Queen Alexandra are giving us their gracious patronage, and I trust that you also will be able to see your way to help.

Signed, Lansdowne, President of the British Red Cross Society, 53 Pall Mall, London.

I have also a telegram from His Royal Highness the Governor General, signifying his approval and endorsement of the appeal.

## A GRAND PARADE FOR PATRIOTIC DRAWINGS

Another crowd in St. Andrew's Rink last night—Features of the parade.

In St. Andrew's rink last evening a few odds and ends left over from last week's patriotic auction were sold, also many tickets for the patriotic drawing for fifty prizes to take place on or about November 1. Mayor Frink was present and briefly thanked all those who had helped to make the auction a success, especially the Daughters of the Empire, City Cornet Band and other organizations. The band was in attendance and played several patriotic and other selections.

Most of the prizes to be given in the drawing were on view at the rink and this afternoon they will be paraded through the principal streets of the city in an unique procession. The Cadillac car won by L. V. Price will lead the parade. Then will come the first prize in the drawing, a handsome Russell car, model R. 1911. This will be followed by the Jordan picnic wagon, auctioned last week, drawn by four horses, while displayed on motor trucks and carriages will be carried the other prizes.

Colonel Armstrong has consented to the full bugle band Partridge Island joining in the parade and heralding its approach. Daughters of the Empire will be present in motor cars, the Cadillac being driven by Miss Lois Grimmer. These ladies and other members of the order will sell tickets for the drawing during the day. Owners of autos, or of matched horses who are willing to loan these for the purposes of the parade are asked to phone Main 1996 as early this morning as possible.

### FUNERALS.

The funeral of John T. Butt took place yesterday afternoon from 102 Queen street, many friends attending, including members of the Newfoundland Benefit Society. The services were conducted by Rev. T. J. Beinstadt, interment being at Cedar Hill.

## HAD ECZEMA 20 YEARS

Cured by Zam-Buk.

Mr. Joseph Johnson, 184 Broome St., New York, writes: "Over twenty years ago eczema appeared on my hands and face. I went to a doctor, but his treatment afforded only temporary relief. Finding medical attention and treatment of little avail I commenced to try first one and then another of the so-called remedies which were recommended, but for over twenty years I suffered from this painful, humiliating disease. During this time I spent hundreds of dollars and all I got was temporary relief. At last Zam-Buk was suggested to me. I decided to give it a trial, but did not expect a cure."

"The first few applications proved this remedy entirely different to the scores of preparations I had used in vain. Persistence with Zam-Buk and Zam-Buk Soap, I am more than glad to say, has effected a complete cure."

"Zam-Buk is beyond all question a marvellous preparation and I most heartily recommend it to all sufferers from eczema."

"Think of it, suffering day in and day out for twenty years! Think of the grip this disease must have had on the entire system! Think of the healing power of Zam-Buk which, despite the long-standing nature of the disease effected a cure! How much more easily and more quickly the cure could have been effected had Zam-Buk been applied at the outset!"

If you suffer from any skin disease or injury, piles, ulcer, abscess, rheumatism or scalds, take this lesson to heart. Try Zam-Buk first and give it a fair trial.

At all druggists and stores, or post paid from Zam-Buk Co., Toronto. 50c. box; 3 for \$1.25. Zam-Buk Soap, 25c. tablet. Send 1c. stamp, this ad, and name of paper and we will mail you free sample of Zam-Buk.

## SEEKS INJUNCTION TO PREVENT MUTUAL LIFE CO. INVESTING IN LOAN

Chicago, Oct. 11.—Alleging that the Mutual Life Insurance Company of New York contemplates investing \$10,000,000 of its trust funds in the Anglo-French loan of \$500,000,000, Olga H. S. Walsh, Chicago, holder of a \$2,000 insurance policy in the Mutual, filed suit for an injunction in the Federal Court here today.

Barley Soup

Barley makes one of the most nourishing of soups, only care must be taken to cook the barley for at least three or four hours in a separate pan before adding to the soup stock, using the water you have boiled the barley in as this contains the nourishing part.

Keep plenty of soup stock on hand. Cooks should remember never to boil soup, but gently allow it to simmer to obtain all the nutrition.

Soup, to be good, must be well seasoned. If it is watery and the vegetables in it are not thoroughly cooked it is not only unwholesome, but distasteful as well. By keeping the stock on hand it is possible to have a cheap, easily prepared soup each evening for dinner.

### DIED.

**STACKHOUSE**—At Moncton, October 9, George W. Stackhouse, aged fifty-eight years.

Funeral on Wednesday morning from the Union Depot, St. John, after arrival of Maritime express from Moncton. Interment in Fernhill.

Companies No. 1 and No. 2 of the Salvage Corps and Fire Police are invited to attend.

By Order,  
GEORGE BLAKE.

Chief of the St. John Fire Dept.

### Constant Worry

Constant worry, as most women realize, makes provoking little lines in the forehead and around the mouth and causes the muscles of the cheeks to sag, destroying the youthful contour of the face. Sorrow does not make wrinkles; neither does physical suffering; but both of these rob the face of youthful curves and destroy its contour and freshness faster than years can do, by making the eyes sunken and old and by compressing the mouth into lines of age and harshness.

### MADE HONORARY LIEUT.-COL.

Special to The Standard.  
Ottawa, Oct. 11.—Rev. Canon J. M. Almond, of Montreal, and Rev. R. H. Steacy of Ottawa, both chaplains with the overseas forces, have been made honorary lieutenant-colonels.
