OTHER HIGH GRADE RAILS WERE STRONG

Hide and Leather Stock Score New Maximums At 21 3-4 and 94 3-4.

New York, Aug. 23—Assurances of a probable relaxation of money conditions in the near nuture and highly encouraging war advices were the dominant factors in today's stronger and broader stock market. The movement was the more convincing from the fact that it focussed around ralls, mainly of the higher grade, Canadian Pacific, for example, registering an advance of five points, to the discomfiture of the aport interest.

St. Paul common and preferred were again responsive to substantial absorption based presumably on the belief of an early settlement of their dividend status.

Union Pacific, Southern Pacific, New York Central, Reading and secondary coalers were carried along in the advance of transportations at average gains of one point, some of the Southern lines improving similarly.

U. S. Steel was more active than at any recent session, retaining the greater part of its 1 1-4 point advance, independent issues of the same class scoring equal gains.

Hide and Leather common and preferred supplemented yesterday's material gains at the new maximums of 21 3-4 and 94 3-4, respectively, and Fertilizers had occasional periods of prominence at 1 to 2 point gains.

Marine preferred strengthened in the later dealings and the advances were made by motor subsidiaries, General Electric, New York Air Brake, Teach of the for Dipper Harbor, calling at Elevate Connors.
