MONEY SITUATION AFFECTED TRADE ON STOCK EXCHANGE

Interest Rates on Both Mixed and Industrial Collateral Rose to 12 Per Cent. New High Record for the Year.

New York, June 13.—This was a day of severe liquidation of the Stock Exchange with trading influenced exclusively by the money situation. Declines registered early in the session were extended when, in the final hour, the interest rates on both mixed and industrial collateral rose to 12 per cent., a new high record for the year.

This advance, illustrative of restriction of funds for stock market purposes, reflected the necessity which has arisen for making money supplies available in other directions, notably for the payment of the federal income tax installments due tomorrow, and for meeting the gold export needs.

The situation was not one to encourage pool interests to support the special stocks which were foremost on the rise of last week.

Shares of virtually all groups were unloaded freely. Under the activities of the bear faction, the occasion short covering not being sufficiently important to check the decline except during monetary periods. Prices for the motor shares dropped 1 to 1 1/2 points, oil 1 to 8, shippings 2 to 1 1/2, and rails 1 to 2 1/2.

United States Steel common declined 2 5/8 to 105 1/2 and other steels from 2 to 5 points. Sales amounted to 1,450,000 shares.

Bonds also yielded, but Victory 3 1/2 per cent. advanced to a new high level of 104 1/8.

Total sales, par value, aggregated \$10,650,000.

Old United States bonds were unchanged on call.

INDIANS TO ASK GOVERNMENT HELP

Quebec, June 13.—A delegation of Montagnais Indians from the far interior of the North Shore after traveling some seven or eight hundred miles to come to Quebec, arrived here and proceeded to Ottawa where their chief will meet members of the federal government to ask for aid for families of Indians who will leave by the end of August for their traditional trapping season, and who lack provisions.

CONGRESS APPROVES THE U. S. ARMY BILL

Bulletin—Washington, June 13.—Without a record the House passed and sent to the senate the 1920 army appropriation bill, carrying a total of \$178,000,000, and providing for a temporary army of 300,000 men. The original measure recommended by the war department carried \$1,850,000,000.

ALFRED H. BRITTAIN

Alfred H. Brittain, the vice-president and general manager of the Maritime Fish Corporation Ltd., is one of the largest fish producers in Canada. He is also vice-president of the Schulz Manufacturing Co. of Hamilton, Ont. The Maritime Fish Corporation was organized by Mr. Brittain in 1911, at which time he was appointed managing director. He was one of the organizers of the Canadian Fisheries Association, and has been president of that association since August, 1918. He was the pioneer in the shredded codfish trade of inland Canada; one of the first to successfully undertake steam trawling on the Atlantic coast, and a leader in the frozen fish trade between Canada and Great Britain. Mr. Brittain is a member of the National Fisheries Protection Association of Great Britain.

Much Schooling.
Young officers graduated at West Point yesterday had been graduated there once previously. All of them are going to France for more training. Four of them married immediately after receiving their commissions. This seems like crowding the educational curriculum, but West Point men always have been equal to any demand.

HEAVY SELLING AFFECTED STOCKS

Motor and Oil Stocks Were the Heaviest Losers on Sluggish Market.

(McDOUGALL & COWANS.)
New York, June 13.—Selling was heavy around mid-day and in the early afternoon and affected the rails as well as the industrials. Motor and oil stocks were the largest losers, some of them going half a dozen points or more below the previous closing prices, but the steel issues and list generally were off two to three points. Call money rates went up to 10 per cent., then back to 6 per cent., then rose again. There was a brief rally about half past two, but in the late trading the market again sold off and the final prices were the lowest of the day. Aside from money market there was no news to account for the decline which was described in some banking quarters as more a matter of atmosphere than anything else. Apparently the larger operators were content to stand aside for the time being and consequently there was little buying power to offset the selling from the outside public and from the professional traders.
