

FOR AND ABOUT WOMEN

SOCIAL SERVICE WORKER ARRIVES

Arriving from Halifax by an early train this morning is Miss Rattee, who is engaged in social work and reform work under the Presbyterian Church. A wife was received by Miss Cora Stinchell, the Presbyterian Deaconess yesterday, asking her to have arrangements made for Miss Rattee to address several meetings while in St. John.

Miss Rattee, who is of French descent, has given many years of her life to social work, and has travelled from coast to coast through the Dominion in the interests of Redemptive work. She spoke here some four years ago and is a fluent and interesting speaker. She is now travelling in the eastern part of Canada, and has had most successful meetings in Halifax.

P. E. Downing is planning several occasions at which Miss Rattee will speak and Mrs. J. A. Thorton Smith will reside at a gathering at St. Andrew's church, which will be open to all women. Community work and social service are so much questions of the day that it will be a great advantage to have the experience and advice of one who has studied this subject thoroughly.

St. John theatre patrons have an excellent treat in store for them, when upon February 18th next, they will be permitted to witness at the Opera House, "The Man in the Box." This production will be given by St. John's best amateur talent in aid of the Great "War Veterans" Association, and promises to eclipse any local production seen here for a long while.

"The Man in the Box" will be produced under the direction of Mrs. A. C. Wilson, which speaks volumes for its success. At any rate, you owe it to the Veterans to do all in your power to make the event a record breaker.

LET A WOMAN EXPLAIN IT. I want my simple method of home treatment, and you can get it free of charge, and put it into practice with your own hands. Write to me to-day. Address: Mrs. B. Summers, Box 937, Windsor, Ont.

Tells How to Stop a Bad Cough

Surprising results from this famous old homeopathic remedy. It is easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness or difficult breathing, or if your child wakes up during the night with cough and you want quick relief, try this famous old homeopathic remedy. Any druggist can supply you with a bottle of Pinex (10 cents worth). Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. If desired, this makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its low cost, it is really a real cure to give quick and lasting relief. You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membrane that lines the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of refined Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "25¢ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

MACISTE ALIVE, REPORTED KILLED

Star of The Warrior — The Liberator His Latest Picture

Some time ago, a report was published that "Maciste," the giant Italian star of "The Warrior," "Cabrila" and "The Liberator," which is now being offered on the state rights market by Harry Raver, had been killed in action, says The Moving Picture World. As a consequence, Mr. Raver's office was besieged with inquiries as to its authenticity, and he was in suspense for several weeks until a cable reply to his inquiries was received, reading "Maciste enjoying his usual appetite." Whereupon the story was published contradicting the report of his death.

As further evidence that "Maciste" is still alive and well, Mr. Raver recently received the following letter from the "Italian Douglas Fairbanks": "Salutations and good wishes. I am resting for two weeks after the sensation of aspiration and several anatomical perforations which prevented me from enjoying my usual four portions so long ago it seemed an age before they would give me enough food for a sparrow's nourishment, but I am fortunate and happy that all my eyes and bones will last as long as I go to see my mother. As for yourself, please be content. I am well and you will soon have another cinema film of Little Maciste." The "Liberator" not to do what you call 'stunts', but to use my good strength thinking always the American people to be serious and not waiting to be deceived."

Maciste modestly forbade giving the details of his wounds, but further advice from his firm in Turin tell of his courage and patriotic fervor, his disregard for danger, and faith in an Italian victory, always spurred on by the advice of his friend Gabriele. In the army he was a favorite with officers and men alike. He had frequently to be cautioned against undertaking hazardous exploits, and his only complaint was that too much of the action was being shown in the east of "The Liberator," his newest picture.

LOCAL RED CROSS

It was reported at the executive meeting of the Red Cross, held yesterday morning, that a cable had been received stating that Pto. E. Speight, Main Street, is ill with influenza at 15 General Hospital, Orpington, Kent, England, but that his condition, which had improved, is not considered serious. Pto. Speight was a prisoner of war in Germany and was repatriated through the efforts of the society. He is believed to have been the last St. John boy released from Hun captivity. The Canadian War Contingent Association reported that they were supplied with enough sweaters, caps and other clothing for emergency calls. Mrs. Roy Campbell, who is in charge of the Dispensary at the West Side, was given \$300 worth of cotton. It was decided to take charge of the Red Triangle during the third week in February. Satisfactory progress is reported on the supplies for Serbian relief.

Mrs. John A. McAvity presided at yesterday's meeting.

AT A MOVIE THEATRE.

(Philadelphia Public Ledger.) How well he spoke who coined the phrase "The picture palace." Aye, in south A palace, where men's weary days are crowned with kingliness of youth.

Strange palace! Crowded, airless, dim, Where toys are sold and strained eyes smart. We watch a wand of brightness limn The old heroes of the heart.

Romance again hath us in thrall, Young love is sweet, and always true. And in the darkness of the hall, Hands clasp—as they were meant to do.

And when more savage scenes occur Kind escorts calm the troubled mates: "Sure, that's a dummy, that ain't her—"

Released from peevish joys and ills Our souls, pro tem, are purged and free. We see the sun on western hills, The crumbling tumult of the sea.

We are the blondest that maidens crave, Well balanced and a dozen banks; By weight of hand we haste to save A brown-eyed life, nor stay for thanks!

Aha, perhaps our instinct feels Life is not all it might have been, So we are cast upon a screen!

WHAT'S THE STYLE?

Scarfs of velvet, deeply fringed, are becoming very popular.

Side panels are usually shorter than front and back panels.

Shirtings, smockings and quiltings all appear on millinery.

Skirts are draped to give the effect of being very narrow.

Trimnings consisting of tucks and cording continue in favor.

White crepe scarfs or shawls are heavy with Chinese embroidery.

Striped silk pajamas seem to be the proper thing for night wear.

A toque of henna brown velvet is effectively trimmed with squirrel.

Umbrella handles are of colorful snakewood with gold caps and hooks.

Deep tassels of jet beads or steel bones are hung on the bottom of evening frocks—on the sides of the skirt, one on each side. They almost sweep the floor.

Raised bed flowers are the decorative feature of one of the smartest of the new bedspreads. The design is marked out in beads of different color from that of the background, and then the flowers of the design are raised by means, evidently of a little padding.

LOSING HIS SON.

LIBRARY FOR THE COUNTY HOSPITAL

Several members of the Royal Standard Chapter, I.O.D.E., visited the East St. John County Hospital for the purpose of making final arrangements about the fitting up of a room as a library and recreation room for the patients at that institution, many of whom are wounded soldiers. It is the purpose of this Chapter to fill the shelves with good books and periodicals so that those who are unable to go out may have pleasant place to spend their time.

After the room, which is destined for the library, was inspected, the visitors were shown over the nurses' home, which is nearing completion, and the new wing for soldiers.

WOMEN'S SALARIES

In view of a recent controversy over salaries, The following from The Toronto Telegram is of interest: What About Women's Salaries?

"No, tell her she can never expect to get \$25 a week here!" So a woman was actually told in the office of a public service the other day. The salary for particularly anxious, valuable and important work was about \$18 a week, by the way. "I don't know," said the woman, "but I am not going to get a twenty-five a week salary in an important branch of the public service." "Did you see what the head of the Civil Service Commission said this week in London," a cable says. "The employment of women in the civil service is one of the radical changes recommended in the report of the Machinery of Government Committee, of which Lord Haldane is the head."

The committee's statement reads: "The absence of any substantial recourse to women's services has hitherto deprived the public of a vast store of knowledge, experience and fresh ideas, some of which may be particularly valuable and relevant to those of the ablest men in civil service."

THE USEFUL CARROT.

Grated carrots can be used in place of eggs in meat loaf. Use any loaf recipe and substitute two or three grated carrots for the eggs. Use a grater with a little of the fat from the meat, seal until brown; add one quart of water, the carrots and onions and cook 30 minutes; add potatoes and seasoning and cook 25 minutes; then add cornstarch, which has been mixed with a little cold water, and boil 5 minutes. Serve on one platter and sprinkle liberally with parsley.

FEED AMERICA BEFORE EUROPE, SENATORS CRY

Fear of Alarming Conditions in America Blocks \$100,000,000 Food Bill.

HOOVER DENOUNCED AS "HALF FOREIGNER"

President Charged With Chasing Dreams Abroad While Bolshevism Threatens at Home.

Washington, Jan. 24.—"Feed America First" has been adopted as the slogan of those Senators who are fighting the enactment of the bill appropriating \$100,000,000 for food to be sent from this country to the devastated regions of Europe. Today in the Senate the debate on this measure reached a pitch of acrimony not heretofore known at this session of Congress.

Underlying the whole opposition is the prospect of alarming economic conditions in the United States, based upon reports from nearly every State of the increasing numbers of unemployed and the belief that the \$100,000,000 food appropriation for Europe will maintain food prices at a high level in this country.

Reports of unemployment reaching the Senate from various parts of the country are beginning to cause grave concern, and many Senators voiced the warning that the time has arrived for Congress to give more attention to relieving conditions at home.

Senator Harding, of Ohio, one of those in the front rank of the candidates for the republican Presidential nomination, charged President Wilson with a large share of the responsibility for the rise of Bolshevism in the United States, and warned the Senate that "if we don't get back to a peace basis in the next ninety days we will be more concerned about putting on the floor of Bolshevism in the United States than feeding the starving people of Europe."

Senator Johnson, of California, referred to the reports of unemployment demonstrations in Boston and Seattle and declared that "the cloud of unemployment may engulf this country in the next few months and present an issue such as has never before been brought to our doors."

He particularly deplored the reported unemployment of soldiers, asserting that "the American soldier who looks into the muzzle of a machine gun must not be compelled to look into an empty dinner pail."

Senator Penrose, of Pennsylvania, and Senator Hollis staged a red hot tilt when the Pennsylvania Senator proposed to amend the bill to the expenditure of the \$100,000,000 out of the hands of Herbert C. Hoover, Food Administrator, whom he referred to as "half foreigner" and "half socialist."

Senator Penrose charged that Senator Penrose's proposal was a "poison gas attack," designed to humiliate President Wilson and to "make a mockery of the American flag."

Senator Penrose counter attacked by charging Senator Hollis and his fellow democrats with fearing the investigation which he promised would surely come after the republicans take charge of Congress.

"The Senator may have heard when he was in Europe how Pittsburgh troops were ordered over the top and slain in battle; never having had a rifle in their hands until the morning they were ordered to advance upon the enemy," said Senator Penrose. "Does he call an investigation, when those in power are able to make it, of the reason why those brave boys never shot a rifle in their lives until they walked up to slaughter, where the Germans killed three Americans to one of their own who fell—does he call that an investigation?"

"Does the Senator wish to suppress the investigation of the Ford ships, which every shipbuilder in America promised to be failures and hardly capable of keeping afloat on the ocean? Perhaps he wants to protect Mr. Ford in the questionable transaction involved in the construction of these vessels. Does the Senator brand the investigation of Hog Island, with its extraordinary and colossal extravagance, and the very mysterious discrepancies between estimates and expenditures, as partaking of poison gas?"

Food Administration Arraigned. Senator Penrose said that Mr. Hoover might never return to the United States, declaring it more than likely he would resume his residence in England "among those congenial foreign surroundings." He characterized the regulations of the Food Administration as "extraneous and harassing" and declared there was "a universal outcry of dissent against them."

As to the necessity for America's feeding Europe, Senator Penrose said, he was informed there was "abundant" food in Belgium and predicted that within a "not unreasonable time" there will be sufficient food in Europe for the population except in those countries where the Bolshevist spirit prevails.

EXPRESSION OF APPRECIATION

Mrs. W. H. Harrison has received the following letter expressing the appreciation of the boys of the 2nd Canadian Divisional Ammunition Column for the Christmas remembrance sent from St. John to the members of that unit:

H. Q. 2nd C.D.A.C., Sieglar, Germany, 1st January, 1918. Dear Mrs. Harrison,—On behalf of the N. C. O.'s and men from New Brunswick we wish to thank you and all concerned for your thoughtfulness in remembering us in a tangible way on Christmas.

Will you please convey these sentiments to all concerned? The enclosed is a copy of the list which was handed to each recipient of the gift.

On behalf of all ranks from New Brunswick now with this unit, we wish you, and all our friends at home, a very happy New Year.
