

ADVERTISER PUZZLE CONTEST CORNER

Important Questions Answered by Contest Manager and Matters of General Interest Discussed—Contestants Should Watch This Corner

Question: I have been working on another contest. Would that render me ineligible to enter yours?
Answer: You are at liberty to enter ours. Your having entered someone else's contest does not make you ineligible to enter ours.

Question: My father is a subscriber to your paper, and his subscription is just running out. Can I send in his puzzle and register a solution on the contest?
Answer: Yes, seeing that you are of his family and live most likely at the same address.

Question: Would it count the same if you renewed your subscription and someone else's (each for a year), or would you have to send \$10 all on your own?
Answer: It would count as \$5 received on your own subscription, and in case you had a winning solution on the capital prize, would be figured at that sum. See prize list in this regard. Read about amount added to cash prize. If you have a winning solution, \$5 you would be credited with.

Question: Is a new subscriber eligible to enter the figure puzzle contest on the first year subscription?
Answer: His sending in his subscription with his solution make him eligible.

Question: Should a new subscriber send subscription direct to you or give to contestant who interested him?
Answer: Send either way as you please.

one new subscription, and with their having paid that amount. See prize list about new subscribers. Also see prizes \$1 to 100.

Question: Suppose I had odd figures that added to 175 and the even to 90, the difference would be 85. Then, say I had odd figures that amounted to 250 and even to 165, which gives a difference of 85. Now which is the greatest difference?
Answer: According to the rules of the contest 85 is the greatest difference. The greatest sum total difference is what counts.

Question: Is a new subscriber eligible to enter the figure puzzle contest on the first year subscription?
Answer: His sending in his subscription with his solution make him eligible.

Question: Should a new subscriber send subscription direct to you or give to contestant who interested him?
Answer: Send either way as you please.

one new subscription, and with their having paid that amount. See prize list about new subscribers. Also see prizes \$1 to 100.

Question: Suppose I had odd figures that added to 175 and the even to 90, the difference would be 85. Then, say I had odd figures that amounted to 250 and even to 165, which gives a difference of 85. Now which is the greatest difference?
Answer: According to the rules of the contest 85 is the greatest difference. The greatest sum total difference is what counts.

Question: Is a new subscriber eligible to enter the figure puzzle contest on the first year subscription?
Answer: His sending in his subscription with his solution make him eligible.

Answer: Send either way as you please.

NO. 2 COMMITTEE SUBMITS ESTIMATES

Would Insure School Properties For 45 Per Cent of Value.

No. 2 committee of the board of education met on Monday afternoon to prepare its estimates for submission to the board which met immediately afterwards.

Some discussion took place as to increasing the insurance on the various school buildings, and it was ultimately decided to recommend an increase up to 45 per cent of the total value of the properties, or about 125 times the present rate. The present total insurance value is \$352,500, and the increase will raise this amount to about \$1,000,000, involving a premium of \$5,200 for three years.

It was also decided to add an item for the purchase of scales with weights for the weighing of children at the various schools, involving an addition of about \$200.

The question of providing a room for library purposes was also discussed, and a letter received from Fred London of the Public Library, it was considered, whether that was a matter for the city to decide, and that an item for the necessary equipment could not be included in the estimates. It was also recommended that a fair rental be charged for such a room.

The amended estimates were then drawn up as follows:

Table of Estimates.	Estimated	Estimated
Janitors' salaries	\$20,000.00	\$20,000.00
Cleaning expense	1,107.27	1,107.27
General expense	3,946.00	3,946.00
New furniture	52.75	52.75
Fuel	25,344.94	21,815.00
Household equipment	75.87	50.00
Insurance	64.00	8,900.00
Kindergarten	18.60	250.00
Light	663.66	739.00
Manual training	78.47	125.00
Playgrounds	717.99	835.00
Playground expense	19.82	215.00
Playground maintenance	239.19	458.00
Repairs	210.00	210.00
Telephone, ordinary	12,051.88	11,900.00
Telephone, office	570.00	570.00
Telephone, board	217.21	200.00
Architect's dept.	2,282.33	2,405.00
Workshop	974.09	1,500.00
Office rent	1,200.00	1,200.00
Sup't. of works	1,832.97	1,900.00
Architect	144.22	2,000.00
New auto truck	800.00	800.00
Total	\$70,645.22	\$91,032.29

Other expenditures under the head of "other expenditures":

Table of Estimates.	Estimated	Estimated
Interest on debentures	\$48,453.57	\$57,232.11
Sinking fund	21,231.88	21,536.75
Normal training	366.00	366.00
School	130.30	130.00
General expense	1,216.19	1,250.00
Office expense	87.85	87.85
Concert	297.38	297.38
Total	\$69,801.53	\$81,419.85

The question of the new desks and chairs for the technical school was continued for further consideration, as the principal had objected to the pattern of desk which had been submitted.

Normal training was explained by a representative of the board.

Ald. W. A. Wilson unearched a near-scar in the accounts of No. 1 committee.

DRAW MORE THAN UNION WAGES, BUT OBLIGED TO QUIT

Theatre Manager Says Players Themselves Did Not Favor Strike.

Patrons of Allen Theatre last night, where the big double bill program was inaugurated, were provided with excellent music despite the fact that the orchestra was absent.

The absence of the orchestra, the local manager of the theatre, Thomas Logan, told The Advertiser, was due, not to any disagreement between the musicians and the management, but as a direct result of the unfavorable vote by the local of the Musicians' Union in regard to the proposal to reduce the number of musicians employed.

According to Logan, both the musicians at the theatre, the president, and the secretary of the local were accessible to the reduction, but certain members of the union who do not make their living as musicians were able to override the desire of the orchestra, with the result that they were ordered to accept the reduction.

The house is known to musicians as a nine-piece orchestra house, but in the opinion of the local, the orchestra equipment could not be included in the reduction of the number of musicians to eight, or one less than the rating given by the union. This position was held before the orchestra two weeks ago, since which time negotiations have been in progress in the hope that a settlement would be reached, but the vote of the union has been adverse.

Mr. Logan said without hope that a settlement will soon be reached, said Mr. Logan last night, "I know that the men themselves realize the position of the management, and are willing that the reduction shall be made, but the vote of men not concerned in the matter forces them out."

The management consider the union action as unwarranted and unfair.

INTERESTING EXPERIMENT IN DEVELOPMENT OF ELECTRICAL CURRENT

Advertiser Reporter Watches Operation of Galvanometer.

While paying his usual visit to the offices of the public utilities department this morning an advertiser reporter had the privilege of witnessing an interesting little experiment in the development of perhaps it should be said, the excitement of electrical current.

On the table in the drafting room of the building stood a little metal box, with a dial and figure something like a clock, except that there was only one hand or pointer, and that instead of the ordinary kind, while the divisions were more minute even than those of a watch.

The instrument, to which was attached the two ends of a long coil of insulated wire, the bulk of which lay on the cement floor, the reporter was informed is called a galvanometer, and is used to indicate the presence of electricity, the pointer indicating its nature, positive or negative, and its amount.
