

needle; thread over, draw through two, over, draw through remaining two.

Double treble crochet (d t c): Like treble, except that the thread is put over twice before insertion of hook in the work; draw thread through, making four stitches on the needle; take up thread, draw through two, again, and draw through remaining two. In the extra long treble, which is seldom used, the thread is put over three times before insertion of hook in work, the stitches being worked off by twos as directed.

Short treble (s t): Like treble, except that after head is drawn through the work, making three stitches on the needle, it is taken and drawn through all three at once, instead of two.

GILLETT'S PERFUMED LYE

CAUTION.

Put a strong glass on the label and examine it closely every time. Always look for the name "Gillett's."

Like all good articles, which are extensively advertised, Gillett's Lye is frequently and very closely imitated. In some instances the imitators have actually copied directions and other printed matter from our label word for word. Be wise, and refuse to purchase imitation articles for they are never satisfactory.

Insist On Getting Gillett's Lye

and decline to accept anything that looks to be an imitation or that is represented to be "just as good" or "better," or "the same thing." In our experience of over fifty years in business we have never known of an imitation article that has been a success, for imitators are not reliable people. At the best the "just as good" kinds are only trashy imitations, so decline them with thanks every time.

Stanfield's Underwear

(Chapter 1)

A Talk by the Maker to the Wearer.

The Wool

Stanfield's Underwear is made of the best wool that grows on the best wool-bearing sheep in the world—the long, silky-fibred Nova Scotia wool.

The founder of the Stanfield mills did more than anyone else to develop the wool industry throughout the Maritime Provinces. For half a century, the farmers of New Brunswick, Nova Scotia and Prince Edward Island have saved their best wool for the Stanfields—first for C. E. Stanfield—and now for his sons, John and Frank, the President and Treasurer of Stanfields Limited.

The wear of a garment depends on the quality of wool from which it is made. Underwear may be PURE WOOL, and ALL WOOL—and still shrink, ravel and wear out in a single season. Because the underwear is not made of good wool in the first place.

There are seven grades of wool in the fleece when clipped from Nova Scotia sheep. Only the first three grades of this best wool are used in making Stanfield's Unshrinkable Underwear for men and women.

There are no weak spots in the fibre to break in the garments.

There can be no unraveling, because every stitch is locked.

Garments can't shrink, because of our perfected process of treating the wool BEFORE garments are woven, thus insuring absolutely Unshrinkable Underwear.

Stanfield's Underwear is right from start to finish. It is planned right, made right and wears right.

In all sizes from 22 to 70 inch chest measure. In three winter weights—RED label for light weight—BLUE label for medium weight—BLACK label for heavy weight.

Your dealer probably has all sizes and weights in stock. If not, he can easily get whatever you wish.
