

CYC Official Denies Charges

OTTAWA (CUP) — The executive director of the Company of Young Canadians has denied that his organization is the victim of a Marxist takeover.

Alan Clarke said here Tuesday (Aug. 23) there were some CYC members with leftist opinions, but there had not been a takeover or attempted takeover by any group.

The charges that a Marxist group was infiltrating the company were laid in an unattributed story in a recent edition of the *Montreal Gazette*.

The *Gazette* used for the basis of its story, an article published in *Scan* written by a Victoria CYC member, Lynn Curtis. *Scan* is communist-oriented magazine published in Toronto, and the article referred to "the rotting middle class" — a phrase which the *Gazette* reportedly took exception to.

Also mentioned in the *Gazette* attack was David Depoe, 23, a CYC field worker who was arrested for "causing a disturbance" at a sit-in in Toronto's hip Yorkville district, August 21.

Curtis' article suggested any radical who wanted to forward his ideas and gain substantial backing should join the CYC. He said there was a leniency within the organization which allowed the members to do almost what they wanted.

He also said he was pleased with the Executive Director's handling of the *Gazette's* charges.

"The official CYC position has improved greatly since the last time we played one of these little games. This shows a definite growth within the organization," Curtis said.

"For the first time, the company is on the offense. Whenever the CYC has been attacked in the past, it has always been very defensive."

"This time the national office has stood behind the members and defended their actions," Curtis said.

Curtis said the original contract which the CYC administration asked members to sign required all workers to have any writings cleared by the national office before they were published.

"I scratched the clause before I signed," he said.

Curtis admitted a large number of the company's work mem-

Rape On Campus

In a recent discussion with a number of interested parties, Dr. Humphrey Weed revealed that a definite case of rape had been discovered on the UNB campus. Dr. Weed, of the botany and agricultural science department, told how he found the rape-site amidst a clump of twitch grass and common straw in an open field north of Buchanan Field.

He said it was quite surprising to find rape occurring in such an open field, and he will keep a close watch on the area for further developments.

At the same meeting, Dr. Weed confirmed the rumor that the *Brunswickan* is definitely searching for more staffers, particularly reporters and feature writers. He emphasized that the *Brunswickan* is an all-student publication, and needs more students from all faculties to start learning now toward a bigger and better staff this year and next. Reporting can be fun (riotous), and does not require much time and effort. Layout (very challenging) requires only an interest in design, and the ability to draw a straight line. Photographers (no dim bulbs, please) and typists (any type) are also required. Excellent fringe benefits (B.Y.O.B.), free subscriptions, and the opportunity to work with 'nasty, brutish people' are included.

Rape, as Dr. Weed concluded, is one of Canada's lesser-known types of oil-seed bearing plants, commonly used as sheep fodder. (p. 665 *Pocket Oxford*)

bers had socialist political philosophy.

"However, our job is to improve the standard of living among the people we work with, not to instill in them a political philosophy," Curtis said.
