

ART SECTION

WITH the object of improving the standard in religious art, the Union has organized an Art Section. That there is a necessity for this Section is apparent to anyone who even cursorily examines the pictures, statues and other devotional objects now offered for sale.

This Section has been in communication with artists and art dealers in England and the United States and has secured some illustrations of this work.

As an example of the necessity of this work we may say that we have already been appealed to for assistance in procuring suitable pictures of the "Way of the Cross" for a rural church.

The members of the Section believe that if a collection of suitable subjects were easily procurable, many would avail themselves of the opportunity of placing examples from it in prominent positions in their homes.

With this object in view the Section is preparing an illustrated catalogue with prices, which will shortly be issued.
