

## Does Your Cow Pay Her Board?

Cows give more milk and make more beef when they are kept in health and comfort. There's money in cows, but when neglected they don't pay their board. Cows cannot eat contentedly and turn feed into fat meat, milk, cream or butter if they are pestered with fleas, tight flies or scratches all the time. Take care of your cow's health and comfort and she will pay her board and pay you a good profit also. You can insure a cow's health and comfort with a gallon of Zenoleum. It's the cheapest insurance and the best treatment a farmer can have. Zenoleum is a highly refined Coal-tar product, having three times the disinfecting power of carbolic acid; has a pleasant smell; is clean to handle, a "Safety First" article in every way. ## Travel from one to two years free in your Ford on your saving in one year's depreciation

Other cars in the \$1000 or less class, after one year of service, are worth from \$250 to \$400 less than their purchase price. That's *their* depreciation.

Ford cars, after a year's hard work, sell on an average for only \$125 less than they cost brand new. That's *Ford* depreciation.

The difference in depreciation of these year-old cars ranges from \$125 in the one case to \$275 in the other—both considerable savings for Ford owners.

Thousands of owners tell us that it costs .024 per mile on an average to drive a Ford—paying for gasoline, oil, tires and repairs.

So, if your saving in depreciation for a year is \$125 you pay all your expenses for 5,208 miles—while if it is \$275, you have kept enough money in your pocket to pay for driving your Ford 11,458 miles.

Buying a Ford in preference to other less than \$1,000 cars, lets you save in one year's time a difference in depreciation that pays all your motoring bills for from one to two years.

Think it over.
