

## Order Farm Machine Repairs Now Delay May Mean Loss

**H**AVE YOU thought of the difficulty you are going to have this year in getting repairs for your machines? It is the most important thing for you to be thinking about right now. Your crops may depend upon it.

You, no doubt, realize that all manufacturers are hard put to it to get materials; and the transportation facilities, freight and express, are congested to such an extent that shipments go through very slowly.

The implement manufacturer and agent in Canada realizes this today and the utmost is being done to take care of the farmers' requirements for repairs. Unless the farmers are also foresighted, many of them are likely to realize the difficulty too when the season for field work opens. They are going to be greatly handicapped if they wait until just before they are ready to use the machines before overhauling them and finding out what parts will have to be replaced.

We cannot urge you too strongly to get busy on this at once. Overhaul every machine on your place and see just what parts you need to put them in good working order, then place your order at once. This is the only way you can be sure of having the new parts in time for use.

We are making every possible effort to get ample stocks of repair parts to convenient points where you can get quick service. International Harvester branch houses are located in all parts of Canada and they always carry large stocks of repairs. Besides there are thousands of local agents who carry a good supply of the parts usually called for. Under normal conditions, you could expect quick action on repair orders sent to us or to any of our agents, but at this time conditions are not normal and it is a personal and patriotic duty to look ahead and plan ahead and be prepared to avoid confusion and crop-wasting delays.

Remember the first orders received are the first to be served, so you can recognize the importance of overhauling your machines now and seeing what you will need and getting your order placed. Better be ready than sorry. Do it now.

"We Make and Temper Our Own Steel"

# SIMONDS

"The Saw Makers."

Steel used in Simonds Crescent Ground Cross-Cut Saws is made from a special quality of steel manufactured in our crucible steel mill and tempered by our own secret process. This steel gives the teeth a toughness and hardness which enables them to hold their sharp, keen cutting edge under long and severe usage. Write for Booklet.

St. Remi St. and Acorn Ave.,  
MONTREAL, Que.  
VANCOUVER, B.C. ST. JOHN, N.B.

Use Power in the House as well as in the Barn

Runs by Motor or Engine

**YOU** know how much farm work is saved by electric motors and gasoline engines. Why not adopt the same idea in the house? Backaches from washing are out-of-date. Successful housekeepers everywhere insist on washing machines, and the best idea of all is the power washer, because it does all the work itself and needs no attention whatever.

**Maxwell**  
Power Bench Washer

It has proved itself a wonderful friend to others. Let it help you. It will even do the heaviest or dirtiest clothes with no tearing or wringing. Handles the biggest or smallest wash. Made in three sizes. Write for particulars.

**MAXWELL LIMITED, - Dept. W - St. Marys, Ontario 40**

## Joseph and His Brethren were Farmers.

The reason we hear more about Joseph than we do about his brethren is because he put by his substance in the seven fat years, and his brothers didn't.

The farmers of Canada are in for seven fat years, and they deserve it. And many of them—the wise ones—are taking advantage of this prosperous condition. They are laying aside a part of their present earnings to provide for the lean years that are sure to follow soon or late.

A favorite form of investment among farmers is Imperial Endowment insurance. Such an investment encourages systematic thrift. And it enables a farmer to provide for his family in case he should die early as well as for his own old age.

Ask us to send you our free booklet "Penniless Old Men" which tells all about it. A post card will do.

These tools do the work of 3 to 6 men

One man can cultivate 3 to 6 times the usual acreage with Planet Jr implements. They are so designed and constructed that with greatest ease they do thorough, rapid cultivation. You save time, labor, money, cut down living expenses, and increase the food supply.

**No. 25 Planet Jr Combined Hill and Drill Seeder, Double and Single Wheel Hoe, Cultivator and Plow** sows all garden seeds from smallest up to peas and beans, in hills or in drills, rolls down and marks next row at one passage, and enables you to cultivate up to two acres a day all through the season. A double and single wheel hoe in one. Straddles crops till 20 inches high, then works between them. Steel frame and 14 inch steel wheels. A splendid combination for the family garden, onion grower, or large gardener.

**No. 17 Planet Jr** is the highest type of single-wheel hoe made. It is a hand-made machine whose light durable construction enables a man, woman, or boy to do the cultivation in a garden in the easiest, quickest and best way. We make 24 styles—various prices.
