

**PROVAN'S**  
(Improved Malleable and Steel)  
**HORSE FORK AND SLING**  
IS THE BEST MADE.

**SIMPLE, STRONG, DURABLE**

Many farmers who had other kinds have taken them down and bought mine after seeing it work.

My Machine Handles Sheaves as well as Hay and Peas - It is the Simplest and Best Stacker Manufactured.

Our machine has been in successful competition for seven seasons, and its superiority to all others is now placed beyond a doubt. It is the only Double-Acting and Self-Reversing Machine on the continent that has the following advantages: A loaded fork or sling can pass the stop block. Our Pulley Hoister instantly raises or lowers the pulleys from or to the peak, thus avoiding climbing or untying the rope from the whiffletree. The track used with this car is the best for the following reasons: It acts as a strengthening brace to the barn; never warps or is affected by a side draw. The car runs easily, and can be readily moved from one barn to another. For unloading at the gable we have much the strongest end-lift, take up less room, and do not disfigure or weaken the building with posts or projecting beams.

**GUARANTEE.**

We guarantee every machine sold by us to do first-class work, and to unload one ton of hay in from three to five minutes, when properly handled and put up, and if it fails to do so, will be taken back and money refunded.

**SENDING TO FARMERS ON TRIAL**

It has been for years a part of our business to send our machine on trial to fair-minded responsible farmers living at remote distances, such machine to be put up by them and used until their harvesting be half done, when they are required to decide whether they will keep the apparatus or return it; if the latter, we will pay return freight charges.

**GOOD CROPS OR POOR CROPS,**  
Which Shall it be for 1893?

W. A. FREEMAN, Esq., Niagara, Jan. 27th, 1893.  
Dear Sir, - Having given your "Bone and Potash" a fair trial with most satisfactory results, I have much pleasure in adding my testimony to its excellence as a fruit producing fertilizer. I have used it at the rate of 8 lbs. per tree in full bearing. I have placed in the hands of Mr. Gage my order for eight tons, an increase of two tons on order of last year. Respectfully,  
(Signed) J. H. BENN.

W. A. FREEMAN, Esq., Niagara, Jan. 27th, 1893.  
Dear Sir, - Used your potato manure last year, and am well pleased with it. We used on one piece one sack with manure per acre, on another two sacks with manure, and a small piece without manure, but with fertilizer at the rate of three to four bags per acre. The manure plots had at the rate of twelve to twenty loads per acre. The largest yield was received from the plot where fertilizer alone was used.  
(Signed) A. C. HOWE.

**THE CORBIN PATENT TEMPERED DISK**

Every Slicer Disk in the Corbin Harrow and the Corbin Drill is stamped exactly like the words in the circle surrounding this. If not so stamped, it is **not genuine** and is **not tempered**.

The Ball Bearings and Tempered Disks in the Corbin Harrow make it capable of cultivating **TEN THOUSAND ACRES (10,000)**. None other will bear one-half this work.

The Corbin Patent Tempered Disk is hardened on the cutting edge and is soft-centered.

**The Dale** **PIVOTED LAND ROLLER**

(PATENTED.)

A STEEL ROLLER, THE DRUMS OF WHICH OSCILLATE ON PIVOTS AND ADAPT THEMSELVES TO THE UNEVENNESS OF THE GROUND.

Its points of advantage are too many to enumerate. Some of them are :

The bearings are the only wearing parts and are guaranteed to last from Ten to Fifteen Years, and can be replaced at a nominal cost.

It rolls all the ground, no matter how rough. There is no axle shaft, no strain, and consequently no wear. It is easily oiled between the drums.

THE DEMAND IS STEADILY INCREASING. IT IS UNANIMOUSLY RECOMMENDED BY THOSE FARMERS WHO HAVE USED IT.

Orders are now being booked for the spring trade. Description and price furnished on application to
