J. R. STRATTON,
 Toronto, June 8th, 1901. Provincial Secretary.

Anchor Wire Fence.
 (PATENTED SEPT. 7, 1894.)
 The strongest and best fence yet devised. Simply and easily constructed.
 The clamp before being used.
 It is made throughout of No. 9 Plain Galvanized Wire, both horizontal wires and cross wires or uprights. The steel clamp securely fastens the horizontal and cross wire, thus consolidating the strength so that the whole fence resists an attack on any part of it. As the strength of a chain is gauged by the strength of its weakest link, so a fence is only as strong as its weakest part. The Anchor Fence is equally strong throughout, and being constructed wholly of large wires, is much stronger than a fence in which small wires are used.

HARVESTING PEAS

The Genuine Tolton Pea Harvester with New Patent Buncher at work. Harvesters to suit all kinds of mowers, with all but self-delivering bunchers. Harvesting in the most complete manner from eight to ten acres per day.
Every Machine Warranted. Our Motto: "Not How Cheap, but How Good."
 No drilling holes in Mower Bar or Inside Shoe. A wrench is all that is required to attach it to any mower. Give your orders to any of our local agents, or send them direct to
TOLTON BROS., GUELPH, ONT.

LONDON FENCE MACHINES ARE UP-TO-DATE.

WHEN GETTING, GET THE BEST.
 COTTAM, MAY 25TH, 1901.
 DEAR SIRS,—Having purchased one of your LONDON FENCE MACHINES this spring, I have used it to build about 250 rods of wire fence, and consider it the best machine I have ever used or seen used for weaving wire fence. I think that any ordinary man, with 2 hours' experience, could weave from 40 to 50 rods a day easily, and I have no hesitation in recommending it to farmers who are putting up wire fence. Yours truly,
JAS. W. SHEPPARD.
 Coiled Spring Wire, Steel Gates, Wire Stretchers, Reels, Pliers, Staples, etc.
