

**Use This Loader and Hire No Men**

One man can build the load because the Loader pushes the hay well forward on the wagon. This feature saves one man's wages, over other types of Loaders, every day used. An adjustable apron at top keeps hay from spilling or blowing away.

Here's a Loader that takes hay clean from swath or windrow. The nine rakes are so shaped they can't wrap or tangle, they automatically self-adjust, each independent of the other and pick hay out of low places, don't tear up ground in high places. Wheels set underneath so you can gather hay close to fences or ditches.

You can couple it in a few seconds to any height wagon and uncouple it from top of load. No cog gears, or crossed chains, to cut out, no long crooked crank shaft to break, no ropes to rot, no rollers, cams, or what-nots to wear and make trouble.

**Great DAIN Loader**

is a model of simplicity, and efficiency. It is light draft, easy to operate and substantially built of best material to stand hardest service. We have specialized on Hay Tool for a quarter of a century. The name Dain on a Mower, Rake, Loader, Stacker or Press guarantees best work, lightest draft, most labor saved, a perfect machine.

Ask your dealer to show you the whole line.

**Handy Hay Book FREE**

**STEEL WHEELS STRONGER THAN WOODEN.**

Wooden wheels, with their easily-rotted spokes, cannot compare in durability with our Wide-tire Steel Wheels, with their rot-proof, staggered spokes. And our steel wheels are lighter and cheaper, as well as stronger, than wooden. Will carry as heavy a load as a team can draw. Guaranteed too. Please send for catalogue, which tells the whole story. **Dominion Wrought Iron Wheel Co., Ltd., Orillia, Ont. 4**

**10 Feet of Disks**

**THIS** picture shows the 52 disks used inside one of the many "bucket bowl" cream separators that farmers and their wives are everywhere discarding for the simple, sanitary Sharples Dairy Tubular. We have slipped the 52 disks onto two 5 foot sticks so you can count them. The manufacturer and his agents call this disk bowl simple. Looks simple, doesn't it? They also say the 52 disks can be washed all together—as one piece—and hung up to dry. What do you think of such a statement? Ten feet of disks to wash clean and dry thoroughly, on both sides, twice daily. What a weary job after a hard day's work or a late milking.

Why make the mistake of getting a "bucket bowl" machine? You'll very quickly wish you had a simple, sanitary, Sharples Dairy Tubular Cream separator instead. The dairy Tubular bowl contains just one instantly removable piece about like a napkin ring in size and shape. The entire Dairy Tubular bowl is easily washed clean in 3 minutes. The manufacture of Tubulars is one of Canada's leading industries. 1909 sales exceed most, if not all, "bucket bowls" combined.

**Put a little "Sunshine" in your home**

An old-fashioned, ill-working furnace is a non-producer. It consumes the coal, but through leaks and cracks wastes the heat. It is not economy to have such a furnace in your own home, or in your tenant's home.

If you are thinking of building you should be interested in Sunshine Furnace. It adds 100 per cent. to home comforts.

As soon as you let the contract for your house decide on your furnace. The "Sunshine" man will be pleased to tell you just how the rooms ought to be laid out with an eye to securing greatest heat from the smallest consumption of coal.

If you want to experiment with the question don't specify "Sunshine."

If you want to settle the question specify "Sunshine."

**The Tie That Binds**

Examine our lock—"The Tie That Binds." Notice how it locks smooth on both sides of the line wire. Being an oval loop, it permits a long bend in the line wire. This does away with short kinks, which cause so many breaks in the fence.

This lock can't slip and adds strength and wear to the whole fence. The "Standard" may cost a little more than small, soft wire fences—but it's worth more to every farmer and stockman who wants the best. Write direct to the factory for catalogue and sample lock.

**This Knot**

is small, but it costs farmers money. Delays and breakdowns are expensive in harvest time. Cheap binder twine has many knots, which cause delays. Use

**Plymouth Binder Twine**

It is better made, smoother, free from knots. It looks better in the ball—it is better in use. Guaranteed full length and extra strength. One man says: "There is not a dealer or farmer in this county who does not regard Plymouth Twine and Rope the best he ever saw." Get Plymouth Twine at the local dealer's.
