When he was appointed to that parish there was no glebe house, no church at Low Point—well, yes, there was a church at Low Point and the same is there yet, standing on the same old site; and if we are disposed to draw a contrast between it and the new, many of our good friends might find fault with us; but truly when we looked on both last Sunday we found ourselves a little in clined to smile. It is a memento of olden times no doubt. Well, the good people of Low Point went to work in earnest, and built within the short space of two years

FIVE-MINUTE SERMONS FOR EARLY MASSES.

BY THE PAULIST FATHERS. Preached in their Church of St. Paul the Apostle, Fifty-ninth street and Ninth avenue, New York City.

WENTIETH SUNDAY AFTER PENTECOST. "And himself believed, and his whole

house." I wish to say a few words this morning, dear brethren, on the force of example. St. Paul tells us in the Epistle to the Romans that "none of us liveth to himself, and no man dieth to himself;" and, again, that we are "members one of another." That is to say, we all influence the conduct of others and determine the course of their lives far more than we perhaps imagine. This is especially true in regard to parents and children. Bad parents, as a rule, have bad children, and good parents good children. How striking an example of the former is the inherited tendency to

drink so often seen in those whose fathers and mother were drunkards before them ! such children may have lost their parents very young and been brought up away from all temptation, but the tendency is there; there is in them a secret yearning after stimulants and the first occasion awakes this sleeping appetite, and they end in the great majority of cases by be-coming in their turn the abject slaves of strong drink.

You remember how, in the fable, the father crab was so worried that his chil-dren would not walk straight along the

dren would not walk straight along the sands, but persisted in scuttling along sideways. When he reproved them for so doing, they replied: "Well. father, show us how to walk straight *yourself* and we will all dutifully follow." So, my brethren, if you wish your chil-dren to walk in the straight path of plety and virtue first see to it that your foot-steps are directed in that path. Lead the way yourselves and then there will be little doubt that your children will follow you. Do you, Catistian father, wilsh your you. Do you, Caristian father, wish your sons to turn out well, to keep away from the salcone, to avoid oaths and foul lan-guage? Then set the example, by avoiding those things yourself. Do you, Christian

mother, wish your daughters to be gentle. modest, sweet, self respecting girls? Then set the example ! Do not be a gossip and a gadabout yourself. Do you, Chris-tian parents, wish your children to reverence God's sanctuary, to be devout attend ants at Holy Mass on Sundays, to be scrupulous in their fulfilment of every religious duty? Then set the example ! Do you want your boys and girls to set a Do you want your boys and gris to set a guaid on their tongues, refrain from wrangling and suspping and scolding and quarrelling with each other? Then set the example? Lead the way, that they may follow. Guard your tongues; be gentle and forbearing, husbands and wives, with each other; and your children will be quick to see and profit by and imitate such a beautiful model.

unta to see and profit by and initiate such a beautiful model. We hear a good deal nowadays about "heredity." Well, there is heredity in religion as well as in other things. If parents are good, devout, reverent Cathopillars, corresponding with the build of the pews and the sanctuary. The altar is of Gothic style, built by Mr. Gillis, the architect, and sets off the whole interior of the church to great advantage. A PROTESTANT PICTURE OF JESUIT WORK.

The subjoined article, from an old copy of the Toronto Globe, points to one of the many footprints of the good Jesuits, who, at a very early day in the history of America, engaged themselves in the dissemination of the knowledge of Almighty God among the red men, and whose footsteps resemble their Master's even in blood and in suffering. When the map of the country is

studied to-day we must look with wonder upon the distance these intrepid heroes of the Cross penetrated what is even at this hour little better than a wilderness; and we must look with wonder also upon the tirades of abuse to which they are subject

at the hands of ignorant preachers THOSE HORRID JESUITS. To the Editor of the Globe :

SIR-A few weeks ago was found in the township of McKellar, on the shores of the Georgian Bay, about ten miles north of Parry Sound, an interesting relic. It was a metal mortar, such as are used by

chemists, seven inches high, ten inches across the top, six and a quarter inches across the base and about three-quarters of an inch thick. Around the upper edge is the insertption in distinct relief, in French, spelling, "Feict L'An 1636"— made in the year, 1636. On each side, in three lozenge shaped spaces, are as many sharply outlined *flaurs de lis*. By way of handles are two grotesque heads in the Louis Quartorze style projecting about an inch and a half. The metal is of a

grayish lustre, not at all crydized, and when struck emits a clear sonorous sound. The vessel was found by a setther while clearing his land, under the roots of a pine tree. It came into the possession of Mr. Wm. Beatty, of Parry Sound. A metal pestle was also found with it, which, however, I have not seen es it has not yet been sent to Mr. Beatty. as it has not yet been sent to Mr. Boatty. This interesting object is unquestionably a vestige of the early French occupation of this province. It was used, I conjecture, for pounding the grain from which were made the wafers for the Holy Eucharist. The bottom of the mortar is considerably worn as if by long use. In the year 1839 the present Bishop Tache, of Red River, found near Orllia a small steel mill which he thought was used for the same purpose. In 1626 Pere Breboaf first reached the

Huron country by a tortuous route nine hundred miles from Quebec through the Ottawa, Lake Niplesing, the French River and Georgian Bay. He was afterwards joined by Peres Daniel, Davost, Lalle-mant, Rugueneau, Jogues and many others At this time the northern half of what is now Simcee county, contained a large and flourishing nation of about large and flourishing nation of about thry thousand Hurons. from prison on Monday. The election at Brighton has resulted after several days reached Christian Island, about twenty five miles due north of Collingwood. They built a new misin the return of Mr. Loder, Unionist, by 7,312 votes against 4,625 for Mr. Peel, blo fortres, the remains of which may still be seen. Here by winter were assem-bled six or eight thousand wretched Gladstonian, the majority being 2,687. At the previous election the Unionist candl date was elected by acclamation, but at Hurons. They subsisted largely on acorns boiled with ashes to take away their bitthe election before the Conservative gained the seat by a majority of 3 330. In all the bye-elections ter teste. Before spring, harassed by the Iroquois, and wasted by pestilence, half the number had died. The whole land, the Gladstonians gained eloven seats from their opponents, and the Conservatives only one, being a loss to the Government of twenty votes. In the other elections the number had died. The whole land, writes a contemporary chronicler, was a scene of horror, a place of massacro. With many tears and after forty hours of con-secutive prayer, they resolved to abandom forever the country, red with the blood of their brothers. With three hundred faithful Hurons, sad relies of a nation once so nowerful they retreated by the Liberal majorities were almost always increased, and Conservative majoritie diminished. The supporters of th Government are in great glee at the result in Brighton. No doubt the Home Rulers made every effort to win with all the odds number in the second state of the interval once so powerful, they retreated by the French River, whose name commemorates their sufferings, to Quebec. They sailed along the shores where had dwelt a popuagainst them; but it could scarcely be hoped that the majority of 3,330 would be annihilated. It was a great stride in advance to reduce the majority by over lace race-not one remained. It was probably in this retreat that the interest
