Proper Lubrication

On your plows, harrows and drills use

**Granite
Harvester Oil**

Insures better work
from the new machine
and lengthens the life of
the old. Wherever bear-
ings are loose or boxes
worn it takes up the play
and acts like a cushion.

Changes of weather do not affect it.

Gasolene
and
Kerosene
Engines

Standard Gas Engine Oil

is the only oil you need. It provides per-
fect lubrication under high temperatures with-
out appreciable carbon deposits on rings or
cylinders, and is equally good for the ex-
ternal bearings.

Steam Traction
Engines
and
Steam Plants

Capitol Cylinder Oil

delivers more power, and makes the engine
run better and longer with less wear and tear,
because its friction-reducing properties are
exactly fitted to the requirements of steam
traction engines and steam plants.

Traction Engines,
Wagons, Etc.

Mica Axle Grease

makes the wheel as nearly frictionless as pos-
sible and reduces the wear on axle and box.
It ends axle troubles, saves energy in the
horse, and when used on axles of traction
engines economizes fuel and power.
