# Happy and Prosperous New Year

To All Good Grain Growers, and To All Readers of the Guide. May their numbers be trebled before another New Year rolls around

Every Intelligent Farmer in the West should be thankful at this Festive Season of the Year for the Progress made in the Co-operative Marketing of His Grain :: ::

Let Every Farmer not only Join His Local Grain Growers' Association Himself, but not rest until his Neighbors Have Joined Also. Other Interests are Well Organized! Why Not Farmers?

This photo is a portion of Our Organization Office as caught by the Kodak Artist. We hope to have it larger next year.
