The John Deere Small Tractor Hitch AND LIFTING LEVER ATTACHMENT

SHADED LINES SHOW ATTACHMENTS

BOTH FURROW WHEELS CONTROLLED BY HITCH

Adapted to any new Deere Gang. The John Deere Small Tractor Hitch and lifting lever attachments provide the farmer with an engine and horse plowing outfit in one implement.

Can be applied to any new Deere Gang now in use or may be purchased as an extra with new plow. Alignment and adjustment unchanged.

A ONE-MAN OUTFIT - PERFECT CONTROL

The entire outfit—engine and plow—can be operated by one man, the bottoms can be raised and lowered from the platform of the engine. A few minutes' work only is necessary to change the plow from horse to engine power.

A One-Man Four-
Flow Tractor that
will go in the field
and show
RESULTS!

A tractor willing to be judged by what it is, and what it does. The WINONA SPECIAL has established a high-water mark in efficiency. It stands first and alone in a class by itself. A cheap tractor is an expensive investment, a good tractor is a money-saver, and money-maker. The WINONA SPECIAL operates successfully on Kerosene, the cheapest fuel. The WINONA SPECIAL is not an experiment, but mechanically perfected in every detail. Built by skilled mechanics, with the best material. The WINONA SPECIAL is equipped with the famous PIONEER double-opposed motor, very accessible, simple, and economical, which means the heart of the tractor with a long life. Transmission is of Machine Cut, Steel Gears, with three speeds forward and a Heavy Roller Chain drive, all enclosed and running in oil. Drive wheels, 18 inches wide, giving a bearing surface of 36 inches on the soil. Width of traction, 56 inches, or equal to four 14-inch plows, making it unnecessary to run drive wheel in furrow to Eliminate Side Draft. Weight of tractor, 8,000 pounds. Don't delay. Write to-day for particulars, or call and let us demonstrate.
