It's easy to appreciate this if you use an AutoStop Safety Razor—the only razor that sharpens its own blades, therefore, the only one that is always in perfect shaving condition.

Take advantage of our 30 days free trial and obtain an AutoStop from your dealer. Try it under all conditions and if not entirely satisfactory return it for refund—there's no other obligation.

DAIRY CATTLE

Clark & Sims, Eastview Stock Farm, Argyll, Man., and Geo. Bevington, Winterburg, Albn., again tried issues here, with the addition of exhibits from W. S. Shore, Cúpar, W. E. N. Hodgkins, Domremy, and G. W. Thurston & Sons, North Regina. Bevington took first placing in all the bull classes. He was also second in the aged

bull class. Hodgkins was second in two-year-olds. Thurston & Sons took the same placing in bulls, calving July 1, 1916, to June 30, 1917. Clark & Sims and Geo. Bevington took the bull calving July 1, 1916, to June 30, 1917, and on Bull, calving on or after Jan. 1, 1918. They also won 1, 2 and 5 in the Amateur exhibitor's section, with show second and Hodgkins third. AYRSHIRES

The Ayrshire herds of Howland Ness, DeWinton, Alta., and F. H. O. Harrison, of Copford Farm, Pense, met here, with the addition of a few entries from A. D. McDonald & Sons, Napinka, Man. Ness got the red ribbon in every class, both male and female, all the championships and all the group prizes. Harrison, whose herd is not so quite well fitted, although it contains some good animals, had to be content with a few second and some third prizes.

The Ness herd contains bigger animals, his bulls have length, strength and straightness of top line, while his females possess femininity and dairy temperament. The same, of course, can be said of many of the animals in the competing herds, but they have not the show fit the Alberta animals possess.

SHEEP

The sheep show, while not as large as Brandon the previous week, was on the whole just as good and the competition in many of the breeds was particularly close and keen.
