### Double the Business in June! That's the Goal We Have Set Out to Reach

Store of Quality and Good Value

And if determination to give unusual money-saving values counts for anything, together with vast stocks from which to choose, then, we will accomplish what we have set out to do. Every preparation has been made for an unprecendented rush. Additional salespeople have been engaged, and arrangements made to handle the extra business expeditiously. The ability of this store to handle large qualities of merchandise brings many opportunities to purchase worthy lots of goods much under their market value. This means that this store can give and DOES GIVE values that are rarely duplicated elsewhere.

Aside from the purely commercial side of this great movement, it will mean much to the people of Brantford and vicinity. Much, in the way of actual savings. Present conditions demand care and judgment in spending your money, so that the utmost in value may be obtained.

"Double the business in June" will be the means of giving every man and woman in this city a weapon with which to fight the high cost of living. Read carefully every announcement we make-then act- if you would save.

"Double the business in June" will be the slogan that will impel each one on our staff from the President to the youngest parcel boy to put forth his best efforts to make June the banner month in the history of this store.

Saturday Morning, June 2nd, will usher in this great event, which will go down in history as the most remarkable movement of high-class merchandise Brantford has ever seen.
