LATER DESPATCHES

THE COST OF LIVING.

(Continued from page one.)
 TORONTO, Feb. 25—Dr. James McQueen of Wentworth North, has moved the following resolution in the Legislature:
 "That in view of the rapid and unprecedented increase during recent years in the cost of living and the difficulty which many citizens of this province consequently experience in providing themselves and their families with the necessities of life, it is the duty of the government to appoint a thoroughly competent commission to investigate the cause of such increase and to report to this house what measures can be taken by this government towards remedying and improving the existing conditions."

VICIOUS NEGRO

(Courier Leased Wire)
 ST. CATHARINES, Ont., Feb. 25—Charles Morgan, the negro wanted for theft of a horse from Niagara Falls, N.Y., who shot at Police Sergeant James Brett on Sunday night, used the gun again early this morning to prevent capture. The fugitive was seen in the vicinity of the G.T.R. depot this morning at 1.30. George had the man covered with a revolver, but the negro whisked out his own gun and blazed at the policeman, the bullet passing through George's ear. The negro dodged the return shot and escaped.

LABOR MEN'S APPEAL CASE

(Courier Leased Wire)
 WASHINGTON, Feb. 25—Arguments on the appeal of Samuel Gompers, John Mitchell and Frank Morrison, officials of the American Federation of Labor, under sentence for contempt of court in connection with the Buck Stove and Range Company case, were begun here to-day and will continue through to-morrow.

NOTABLE AIRSHIP RECORD

(Courier Leased Wire)
 LONDON, Feb. 25—A new and notable record of three hours and five minutes for a flight in a monoplane from Paris to London was made by the well known French aviator, Marcel G. Brindejonc Des Moallines to-day.
 The aviator started at 9.15 this morning from Paris, landed at Calais at 10.30, resumed his flight at noon and descended in London at 1.30 after crossing the channel in a fog.
 The distance between Paris and London is 287 miles so that during his actual flying time of 185 minutes the French aviator flew at more than a mile and a half a minute.

TRAINS RUNNING LATE

FORT WILLIAM, Ont., Feb. 25—All trans-continental trains are running twelve to sixteen hours late as the result of the heavy freight traffic and very cold weather which has been prevalent along the north shore of Lake Superior. During the past week the conditions have been especially bad and trains between North Bay and Fort William have been dropping hours behind.

PURCHASED HALF INTEREST.

(Courier Leased Wire)
 NEW YORK, Feb. 25—Thomas A. Fogarty of this city, a close friend of Frank J. Farrell, owner of the New York Yankees, purchased a half in-

terest in the Jersey City club of the International League, yesterday. He secured 150 shares of the stock, owned by Hugh A. McBrean, former secretary of the Boston Red Sox, for \$15,000. It is quite likely that Jersey City will have first call on the youngsters who are turned back by New York for further development in the minor league. Larry Schafly has signed a contract to again manage the team this season.

EDMONTON SPENDS MONEY

(Courier Leased Wire)
 EDMONTON, Feb. 25—Edmonton electors yesterday endorsed by-laws for the expenditure of five million dollars. Only one by-law out of twenty-one was defeated, that being the one calling for a grant to Misericordia Hospital, an institution operated by the Sisters of Misericordia. The Protestant ministers of the city attacked this grant on the ground that it was for sectarian purposes and as a result it was defeated by a small margin.

EPIDEMIC AT RIDLEY

(Courier Leased Wire)
 ST. CATHARINES, Ont., Feb. 25—An epidemic of scarlet fever has broken out at Ridley College, and eight senior scholars have developed the disease, while several suspected cases are under quarantine. The epidemic is confined to the senior school. The parents of ten boys from Toronto and six from London who are not ill have asked that they be allowed to return home. After consulting with Dr. Hastings of Toronto and Dr. Hutchinson, London's medical health officer, it was decided to allow the boys to return to their homes, providing quarantine restrictions are observed.

FELL DOWN CREVICE

SYDNEY, N.S.W., Feb. 25—Lieut. Ninnis, according to a later despatch, was killed by falling down a crevice nearly a year ago. His death was practically instantaneous. He first desired to join Captain Scott's South Polar expedition, but as there was no vacancy he turned to Dr. Dawson and was accepted. His father is a retired naval surgeon who served under Sir George Nares on the expedition to the Arctic in 1875-1876, when the explorers declared the passage to the North Pole to be impracticable.

CHIEF SUSPENDED

(Courier Leased Wire)
 CLEVELAND, Feb. 25—Cleveland's "Golden Rule" Chief of Police, Fred Koehler, to-day was suspended by Mayor Baker. It is understood that he was first given an opportunity to resign. Subsequently, charges charging Koehler's conduct were filed with the civil service commission.
 Trial of the chief probably will be speedy. The specific charges are that he was guilty of conduct unbecoming an officer and subversive to the good order and discipline of the department and of gross immorality. Koehler was yesterday shown the charges and given until to-day to make a reply. This he did this morning in a letter in which he denied all the allegations against him.

THINK THEY HAVE HIM

(Courier Leased Wire)
 WOODSTOCK, Ont., Feb. 25—Charged with having carnal knowledge of Edith Duncan, who was under 14 years of age, Thos. S. Cudmore of Blenheim Township was remanded by Magistrate Ball to one week. The alleged offence occurred about October, 1911. Towards the end of the summer of 1912, the Duncan girl, died at child birth, and since then efforts have been made by the county police to find her betrayer. These efforts failed and Provincial Detective Miller was called in. As a result of his activities Cudmore was arrested and the crown think he is the man wanted.

Visit every carpet department in the city and you will find that Ogilvie & Lochead's special sale will save 20 to 40 per cent. on any rug.

Oh, tell me, does the setting sun e'er feel a sinking pain? Why is the uniform "Ruffled One" a weathercock so vane? Do stars require a gun to shoot? What makes a bucket pall? What tailor makes the chimney's soot? Who writes the comet's tail?

And why are dogs so lovable, however much they whine? Pray tell me, Mr. Editor, what makes the fir tree pine?

Why is a vessel's hind part stern? Who sings an old hen's lay? Please tell me, for I'd like to know, who wears the close of day?—London Answers.

The Greek Figures.

Greek figures of men appear taller and more graceful than those of moderns. Modern artists make the upright figure seven and one-half times the length of the head. The Greeks made it eight times, lengthening the shin, and the longer sweep from knee to heel gave the figure increased grace and dignity. The same plan was frequently adopted by Lord Leighton, in whose paintings the same effect is obtained.

His Method.
 "I always did make a hit with the women," bragged Henry VIII.
 "With your wit, sire?" murmured the obsequious courtier.
 "No," answered the monarch, with a sly smile, "with an ax."—Baltimore American.

She Was Anticipating.
 "When he proposed to her she knocked him down."
 "Gracious! What did he say to that?"
 "He yelled 'Hold on, hold on! We ain't married yet!'"—Houston Post.

TALES OF CATS.

Stories That Come From the Historic Tower of London.

Two stories of the intelligence and sympathy of our feline friends were told me during one of my numerous visits to the Tower of London while I was living in England.
 Southampton was a prisoner in the Tower with the Earl of Essex during Elizabeth's reign. In some strange way he had come down into his room and found the cat of his fond his abode and suddenly appeared to him, having made an entrance down the chimney. After his release by James I. Southampton had his picture painted with his faithful friend at his side. The portrait, I believe, can today be seen at Wilbeck abbey.

The other tale is of Sir Henry Wyatt, who was committed to the Tower during the reign of Richard III. and suffered much from want of clothing and food. He would have perished if a cat had not come down into his room and warmed him by lying on his breast and saved him from starvation by bringing him an occasional pigeon caught on the leads. Although the keeper was under orders not to improve his food, he agreed to cook anything which Sir Henry provided, and the pigeons which the cat brought saved his life. He also had a picture painted showing the cat offering a pigeon through the bars of his cell.—Our Dumb Friends.

MOCK WINDOWS.

They Were Common In England When the window tax in England, a very old tax commencing in the reign of William III., was not discontinued until Lord Halifax changed it to the house duty in 1851.

It must have caused a great amount of consternation, amusements and other foul air maladies, for in 1850 there were only an average of six windows in English houses. Indeed, the British architects are not yet free from the bad influence of this tax.

In very many old houses in England today there may be seen mock windows painted on the walls for symmetry—hidden things. Not only were glazed windows taxed, but any hole in the wall was included. Indeed, in the early days only very rich people in England had glass windows; and so precious were these that they were carried from one house to another when people moved their quarters.

Curious dodges were practiced to escape the tax, such as extending one window across two houses or making a very wide division between two panes of glass. The loss to the nation must have been a hundredfold the revenues collected from this bad tax.—Boston Herald.

The Word "Set."

What is the favorite word of the English language? The Germans have their "schick" and "quack" which cover many meanings. But we best them in the one word—"post"—which you might suspect of the supremacy of ambiguity—but "set." One always thought that "post" was the word that meant all things and nothing. The punster should watch the word "set," which has achieved nearly seventy columns in the new English dictionary. It is a small word, but its meanings are almost unlimited. You should set to work on the word, which you use every day in a hundred senses. And it would be a pleasant, popular game to set down the number of ways in which you have used that word during the day. "Set to partners" you might call it.—London Chronicle.

Hard Questions.
 Oh, tell me, does the setting sun e'er feel a sinking pain? Why is the uniform "Ruffled One" a weathercock so vane? Do stars require a gun to shoot? What makes a bucket pall? What tailor makes the chimney's soot? Who writes the comet's tail?
